Dear Col. Perez:

This is to acknowledge receipt of your Closure Report received on August 2, 1999, prepared by Ft. Stewart Directorate of Public Works Environmental Branch, for our review.

Based on current requirements of the Georgia Underground Storage Tank Act and the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data contained in your report, the Georgia Environmental Protection Division (EPD) has determined that, for the current release, **no further action is required at this time for tank #16 only. Please continue the investigation for other tanks noted in the Closure report. Provide a scaled map with locations of all tanks (mentioned in the closure report submitted) closed in this area.**

However, this site could be subject to further corrective action in the future if mandated through more stringent State or Federal statutory or regulatory changes, if drinking water systems are identified or installed within two miles of the site, if surface water bodies are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination and/or free product on groundwater are identified as originating from this site.

If you have any questions, please contact me at (404) 362-2597.

Sincerely,

A.J. McAllister
