**SUBJECT: Corrective Action Plan (CAP)-Part B**~~No Further Action Required:~~

**Building 1247 Area, UST#89 Site**  
**McFarland Avenue, between Divarty and West 8<sup>th</sup> Street**  
**Fort Stewart, Liberty County, GA**  
**Facility ID: 9089074\*1**

Dear Mr. Fry:

The Georgia Underground Storage Tank Management Program (USTMP) has received your consultant's letter, dated August 16, 2005, that forwarded a properly certified CAP-Part B Progress Report. The report was prepared by SAIC.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that **no further action is required for the referenced release.**

However, further corrective action may be required if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

Please submit a Completion Report and Certification, documenting that the associated monitoring wells have been properly abandoned, by **January 31, 2006**. If you have any questions, please contact William E. Logan at 404.362.4529.

Sincerely,

Lisa L. Lewis  
Unit Coordinator  
Corrective Action Unit II
