1557 Frank Cochran Drive  
Ft. Stewart, GA 31314-4928

SUBJECT: No Further Action Required:  
Camp Oliver, Former USTs #248 and #249  
Building 15016  
Fort Stewart, GA; Evans County  
Facility ID: 9054006\*1

Dear Colonel Perez:

The Georgia Underground Storage Tank Management Program (USTMP) has received your consultant's letter, dated September 22, 1999, that forwarded a properly certified Corrective Action Plan - Part A. The report was prepared by SAIC.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that no further action is required for contamination resulting from the referenced release.

However, further corrective action may be required in the future if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

If you have any technical questions, please contact me at (404)362-2687.

Sincerely,

*Ronald F. Wilbur*

Lisa L. Lewis  
Unit Coordinator  
Corrective Action Unit II
