Re: Draft Final RFI Report for Four MRS Sites at Fort Stewart

Dear Baumgardt:

The Land Protection Branch of the Georgia Environmental Protection Division (EPD) has reviewed Fort Stewart's response to comments and revised pages for the *Draft Final RCRA Facility Investigation Report for Four Munition Response Sites: Anti-Aircraft Range – 4A (FTSW-009-R-01), Anti-Aircraft Range – 4B (FTSW-009-R-02), Anti-Tank Range 90-MM-2 (FTSW-010-R-01), Grenade Launcher Range (FTSW-011-R-01) at Fort Stewart, Hinesville, Georgia* dated September 21, 2017 and received February 9, 2018. From that review, it appears that the response to comments and the revised pages adequately address our comments dated July 13, 2017 (Potter to Baumgardt). The final version of the document is considered complete and will be placed on file at our office.

As stated in Table 7-1 of Section 7.0 (Conclusions) of *Draft Final RCRA Facility Investigation Report for Four Munition Response Sites: Anti-Aircraft Range – 4A (FTSW-009-R-01), Anti-Aircraft Range – 4B (FTSW-009-R-02), Anti-Tank Range 90-MM-2 (FTSW-010-R-01), Grenade Launcher Range (FTSW-011-R-01) at Fort Stewart, Hinesville, Georgia* dated December 2016 and revised September 21, 2017, corrective action is required to address the contamination at three (3) Munitions Response Sites (MRSs). In accordance with Section III.F.1 of Fort Stewart's Hazardous Waste Facility Permit No. HW-045(S), please submit a Corrective Action Plan (CAP) for Anti-Aircraft Range – 4A (FTSW-009-R-01), Anti-Tank Range 90-MM-2 (FTSW-010-R-01), and Grenade Launcher Range (FTSW-011-R-01) within ninety (90) days of receipt of this letter. Should you have any questions, please contact Alayna Famble or Mo Ghazi at (404) 656-2833.

Sincerely,

Amy Potter
Unit Coordinator
Hazardous Waste Management Program
