RE: Addendum for the 293 MP Company Washrack and Oil/Water Separator [Solid Waste Management Unit (SWMU) 27T] dated September 2000 to the Phase II RCRA Facility Investigation (RFI) Report for Sixteen (16) SWMUs dated April 2000; Fort Stewart; EPA ID No. GA9 210 020 872.

Dear Colonel Stanley:

The Hazardous Waste Management Branch of the Georgia Environmental Protection Division (GA EPD) is in receipt of and has reviewed the above-referenced Addendum forwarded with correspondence (Stanley to Khaleghi) dated September 28, 2000. Based upon that review, GA EPD tentatively concurs with the Fort Stewart recommendation that No Further Action is warranted for the 293 MP Company Washrack and Oil/Water Separator located at the corner of Troupe Avenue and West 4th Street. Please note that a final decision concerning the corrective action status of SWMU 27T will be made by GA EPD through issuance of a Notice of Decision documenting modification of the Fort Stewart Hazardous Waste Facility Permit #HW-045(S&T).

Should you have any questions concerning this correspondence, please contact Brent Rabon of my staff at (404)656-2833.

Sincerely,

Bruce Khaleghi, Unit Coordinator
Hazardous Waste Management Branch
