Facility ID: 0890028*14

Dear Mr. Kiefer:

The Georgia Underground Storage Tank Management Program (USTMP) has received your letter, dated May 26, 2010, that forwarded a properly certified UST Closure Report. The report was prepared by Tetra Tech EC, Inc.

Based on current requirements of the Georgia Underground Storage Tank Act, the Georgia Rules for Underground Storage Tank Management (GUST Rules) and the data submitted, the USTMP has determined that **no further action is required for the referenced release.**

However, further corrective action may be required if mandated through more stringent State or Federal statutory or regulatory changes. Additional measures may also be required if existing or future drinking water systems or surface water bodies within two miles of the site are impacted by any dissolved contamination resulting from this release, or if previously unidentified soil contamination, dissolved contamination or free product are identified as originating from this site.

Please submit a Completion Report and Certification, documenting that the associated monitoring wells have been properly abandoned, by **October 15, 2010**. If you have any questions, please contact me at 404.362.4529.

Sincerely,

William E. Logan
