The Southeast Scoop

Southeast Regional Newsletter
July 2024

- **29 JULY – 09 AUG:** CORA
- **7 – 9 AUG:** 93D SIG BDE Command Team Visit, Ft. Jackson & Ft. Stewart CORA Out Brief
- **14 AUG:** SHARP Training @ Woodruff Theater, Ft. Stewart 1300 - 1430
- **21 AUG:** Regional Monthly IMO User Group Meeting

NOTEWORTHY

- NEW Regional Contact Roster
- SCIP class postponed until August
- NEW Commander's Fitness Program SharePoint Page found under "Regional Toolbox" on the site navigation bar
- Click HERE to see your User Managed Email Distribution Groups. (Note that these are separate from A365 Groups.)
- Effective 1 Aug. 2024, Udemy will no longer be authorized for Army contractors due to funding and licensing constraints.
- Effective 8 Oct. 2024, NETCOM will permanently quarantine all Windows 11 21H2 systems.
- The Army 365 Team has enforced New Teams by Default, as of 9 July. Microsoft announced the sunset of Classic Teams support to be 31 Aug. 2024.

GOT FOMO? STAY IN THE KNOW WITH YOUR IMO!

Join the Regional Monthly IMO User Group Meeting!

Briefings from each division geared towards IMOs, but also a fantastic opportunity to gain knowledge on current events for anyone a part of the tech community responsible for service and support.

Ocurrs every month on the third Wednesday from 2:00-3:00 pm EST. Meeting link HERE.

Add the meeting to your calendar HERE by selecting the "IMO Monthly Meeting" tab at the top of the Team channel. Find the meeting on the calendar and accept the calendar event to be notified of potential scheduling changes.

SOUTHEAST DAD JOKE CORNER

Did you hear about the cartoonist found dead at home?
Details are sketchy.

Submitted by Shaqille Wallace, Ft. Stewart Switch Branch

CORA

Cyber **O**perational **R**eadiness **A**ssessment

What can you do to ensure we are postured for success?

- Ensure PM systems remain compliant and patched.
- Ensure TACLANES, network hardware, and workstations are powered ON and connected to receive updates and maintain operational readiness.
- Ensure containers and safes are secure and only accessible by authorized personnel with proper documentation.
- Never leave your CAC unattended. (Don't be like Shrek.)
- Log off your PC when leaving your workspace.
- Shred old paperwork containing personally identifiable information (PII) or classified data.
- Stay vigilant!!! See something, do something!

WHEN YOU LEAVE YOUR CAC UNATTENDED
AND THERE'S A CAT1 FINDING WITH YOUR NAME ON IT

INSTALL PRINTER WITH PRINTER LOGIC

Printers may be installed with a regular user account via PrinterLogic. Note that printers may still be installed using pre-existing methods. Having the same printer device mapped using more than one method has not resulted in any conflicts in testing.

Navigate to the PrinterLogic site. Users may receive a popup from the site stating that additional extensions are required to be installed. A regular user account may install the extension(s) by following the popup link. If a secondary popup is received to install the Printer Installer client, an admin account is required to install the client. Follow the instructions HERE to install a printer and find additional methods for accessing PrinterLogic.

ISSUES ADDING MEMBERS TO V-TEAM CHANNEL?

Having issues adding members to Microsoft Teams V-Team channels?

- First, ensure the user is added to the overarching Division Team ("93D SE Region – [Division] V-Teams"). A user must be a member of the Team before being added to a private V-Team Channel.
- If the user is not already a member of the Team, a member may request to add the user. Owners will receive the request and may approve or deny it.
- V-Team Leads should review channel membership regularly to remove members no longer a part of the team and to add new team members.

It is the role of the V-Team Lead, or Branch Chief if V-Team Lead is unavailable, to maintain membership of their respective V-Team Channel.

VMOD: REMINDER TO UPDATE THE GAL

Update the Global Address List (GAL) with your new phone number amid SE RNEC Voice Modernization (VMOD) efforts to replace analog phones with VoIP. Find brief instructions HERE.

Updating phone numbers to the GAL will ensure updated numbers in PERSTAT and the new Regional Contact Roster within 48 hours with no further action required for the end user.

SPO DOCUMENT LIBRARY TIP

Each v-team has its own v-team page on the SE RNEC SPO site. Each v-team page includes a document library webpart to display the v-team's folder contents for quick access. However, there are limited options that appear when right-clicking on a file within a document library webpart. For example, there is no option to "Copy to" or "Move to".

However, **all available options may be enabled by selecting "See all"** in the top-right corner of the webpart, which opens the document library directly. This enables all options when right-clicking on a folder/file, such as "Move to" and "Copy to".

Note that the document library will open at the top-level folders by default; simply navigate to your v-team folder by opening the v-team's corresponding division and branch folders.

"What if, and I know this sounds kooky, we communicated with the employees."
