

The Southeast Scoop

Southeast Regional Newsletter

May 2024

CURRENT EVENTS

- **1 - 30 JUNE:** Annual Security Review for SIPR
- **3 – 7 JUNE:** TRADSEC SAV @ Stewart, HAAF, & Wright Army Airfield
- **24 JUNE:** CORA 30-Day IPR
- **29 JULY – 09 AUG:** CORA
- **LATE JULY:** Next SCIP Class

NOTEWORTHY

- The Network Tactical branch has been collapsed. The Network Division now contains only Switch and Voice branches.
- NLT 30 SEP 2024, 7th SC(T) maximizes use of AESD/AESMP for all Tier 0/1 support to complete the implementation of tier 1 level service request to include organic Capability Manager (CM) help desks within 7th SC(T) area of responsibility (AOR).
- Check out the Regional Email Distribution List [HERE!](#)
- VMOD efforts: Ft. Stewart employees will not be retaining their current phone numbers – everyone will be getting a new phone number. Date TBD and more info to come.
- Business Regional Operations Branch SME role now filled by Mr. Jeremie Edwards, Ft. Stewart

NEW! CONTRACTOR SPONSORSHIP APP

93d Sig Bde has developed a Contractor Sponsorship App for the purpose of managing an all-contractors A365 group. This provides contractors access to 93d resources and processes (i.e., public SharePoint Online pages, document libraries, and lists). The app is first being piloted at Ft. Stewart but will likely be implemented across the 93d AOR with time. If contractor access to 93d Sig Bde resources is needed, contact your COR to ensure contractor enrollment within the app. Contractors may click [HERE](#) to access the app and check sponsorship status.

HAPPY RETIREMENT!

Congratulations to Goose Creek LNEC Director Mr. Bruce Masters on a well-deserved retirement! Best of wishes on all future endeavors!

SOUTHEAST DAD JOKE OF THE MONTH

“Hey, where did your daughter go on her fishing trip?”
“Alaska.”
“Oh, don’t worry about it – I’ll ask her myself.”

Submitted by Jerome Giron, Ft. Stewart

REGIONAL V-TEAMS QUICK REFERENCE GUIDE

[Click HERE to access the guide!](#)

There have been several questions since the regional V-Teams have been implemented related to what V-Teams exist, what permissions they have, who are on the V-Teams, how to request membership on a team, etc.

A quick reference guide of sorts has been created to help answer some of these questions.

Please keep in mind this is NOT intended to be the official source of information. If an existing V-Team is disbanded or new members added to an existing V-Team, for example, that information will be updated on the list on the applicable SharePoint Online site that serves as the official source of that information. The same is true for all other information in this guide. This is only intended to be a quick reference guide as of this point in time and to assist with pointing users to the official locations for some of the information contained in it in order to help with some of the questions that have come up recently.

UPCOMING CORA

You hear it all the time recently... CORA this! CORA that! ... But do you know what CORA stands for?

Cyber Operational Readiness Assessment!

How can you help with the upcoming inspection?

- Do NOT leave your CAC unattended, *especially* in a SIPR environment!
- Leave your machine online!
- Ensure access rosters are up to date!
- Do NOT disable CAC-enforcement without approval of Account Management V-Team and ISSM!
- See the slides linked [HERE](#) for more CORA info!

RNEC WARRIORS WALK

Following the RNEC Summer Safety Standdown, NEC employees gathered to honor fallen soldiers at Fort Stewart's Warriors Walk. The walkway is dedicated to the soldiers and attached units of 3rd ID who served in Operations Iraqi Freedom and Enduring Freedom.

Employees strolled along the path lined with the soon-to-be flowering

Crape Myrtles. The trees serve as a symbol of life and a tribute to the soldiers who paid the ultimate price for our freedom – one tree for each soldier. The trees' white blossoms represent the sanctity of life and the purity and innocence of the American soldier. Small tokens can be observed at the base of nearly every tree – framed photos, coins, US flags, a soldier's favorite drink, etc.

FT. MOORE FIRE TRAINING

The Fort Moore NEC coordinated with the Fort Moore Directorate of Emergency Services to have the Fire Department come on site to perform Fire Extinguisher, Fire Prevention and FM200 Training. The training consisted of videos on how to use fire extinguishers and uses of each type. The team learned what FM200 is, what to look for, and how it operates. The training also

included a hands-on simulator for employees to apply what they learned!

[See pictures of the classes and simulations here!](#)

RNEC ORGANIZATION DAY

In the midst of a busy summer season at the NECs, we all need time to relax occasionally. RNEC employees and their families met at Fort Stewart's Holbrook Pond to enjoy Southern cooking, bingo, raffle prizes, cornhole, volleyball, football, good conversation, homemade pies, and more. Shout out to the RNEC Business Division for putting together an awesome day of fun and fellowship!

Many RNEC chiefs pay out of their own pocket for employees to attend these types of events. Thank you to our chiefs for all you do to encourage a positive work culture and boost employee morale!
