- Instructions for ASCL Token Pairing to AUDS ADM Account found [HERE](#)
- AVS Account Management Portal found [HERE](#)
- Fort Novosel now [renamed to Fort Rucker](#)

NEW! TOKEN APPOINTMENT APP

A new application has been developed for users to schedule appointments for token pickup and to provide visibility across the Account Management V-Team. Users only have access to their own appointments and may cancel as needed. Users must schedule a separate appointment for each token approved by Account Management and must provide the corresponding AESMP ticket number associated with the token. An email reminder will also be sent before each appointment.

The Account Management V-Team will provide users with the appointment scheduler application link once their token is ready for pickup.

The application is currently piloted at Fort Stewart but is available region-wide upon request.

CIVILIAN OF THE QUARTER

Congratulations to Mr. Shawn Foist on being awarded 1st QTR FY 25 Senior Civilian of the Quarter for 93rd Signal Brigade! Mr. Foist is the Enterprise division chief and acting director at LNEC Fort Rucker. He is pictured above alongside Mr. Ronnie Burnette, Fort Rucker Network Division Chief.

SOUTHEAST DAD JOKE CORNER

What do you call a guy with a rubber toe?

Robertto!

Submitted by Sandra Resendiz, Fort Stewart Info Ops V-Team

PEO STRI MIGRATION

From left to right: Eddie Simpson (Enterprise SME), Louis Nash (Network & Switch Branch Chief), Brian Wadkins (Regional Integrator), Anthony Lott (Route & Switch V-Team Lead), Colonel Anthony C. Graham (AFAMS Commander)

The Southeast RNEC team has successfully migrated the remainder of PEO STRI's SIPR environment to the Southeast RNEC's SIPR ATO. Four members from the RNEC (pictured above) traveled to PEO STRI in Orlando, Florida to assist in the effort while others stayed back at Fort Stewart to provide vital support creating user accounts and troubleshooting issues. Congratulations to the entire team for their display of teamwork and dedication!

FIVE RIVERS ANALYTICS

Front Row [left to right]: Russell Masters, Kaylee Crouch

Five Rivers (5Rs) Analytics is proud to announce its new contractor presence at Goose Creek LNEC, supporting our nation's critical infrastructure and defense systems. As an Alaskan Native Corporation 8(a) Small Disadvantaged Business and a subsidiary of Akima, LLC, 5Rs is committed to delivering innovative and reliable solutions to its clients. With a team of over 350 dedicated contractors operating across eight U.S. states and three international locations, 5Rs leads prime contracts that serve vital missions across multiple agencies. For the U.S. Army, 5Rs provides essential IT support at Fort Irwin, Natick Soldier Systems Center, HQDA G9, and Goose Creek LNEC. As the prime contractor for the U.S. Space Force's STORMS IDIQ, the company delivers broad mission support to the global Satellite Control Network, including IT Operations & Maintenance, COMSEC, Logistics, and Facilities Support, with more than 180 employees. Additionally, over 100 contractors support the FAA's National Airspace System (NAS), contributing to the safety and efficiency of U.S. airspace through technical support for communications, equipment, and facilities. As part of a broader matrixed business unit of over 900 employees spanning the U.S. and seven countries, 5Rs draws on deep expertise in Network Enterprise IT, Cybersecurity, Simulation Training, Military Operational Planning, Force Protection Planning, Logistics/Facility Support, and Records/Knowledge Management. 5Rs remains dedicated to delivering exceptional results and is honored to support SE RNEC's mission by contributing to its operations.

LNEC GOOSE CREEK EMPLOYEE SPOTLIGHT

Nathaniel (Nate) Sexsmith was born and raised in Charleston, SC. He likes to spend his free time with his wife and 2 sons. He spent 6 years active duty Army, most of that time spent at Fort Stewart. Since getting out of the Army, he has worked at the Goose Creek LNEC. In his four years at the LNEC he has filled multiple slots including system administrator, network administrator, and most recently LNEC contractor site lead. When asked about his new role, Nate said, "The team here at Goose Creek LNEC is great and I'm very excited to start leading this team. I've learned a lot in my time here and I look forward to continuing to learn from the team here and all the folks at the RNEC."
