### NOTEWORTHY

- New employee needing an AESMP/Service Now account? See the new [AESMP Account Creation page](#)! Find it under Regional Toolbox -> Business on the SPO site navigation bar.
- [milSuite sunsets](#) 31 March 2025 (though the [milSuite](#) site itself states sunset as effective 30 April 2025). Any files, data, or sites stored on the platform will be inaccessible after 1 April 2025
- Link Solutions celebrates [Sandra Resendiz](#) and [Megan Felesky](#) in honor of Women's History Month. Read about them at the links above.
- ATCTS to be decommissioned 1 May 2025. Take steps now for submitting vouchers and tracking training. Follow the steps outlined [HERE](#)!
- NEW! [AUDS Migration Dashboard](#)
- Click [HERE](#) for VERA/VSIP information and application. VERA/VSIP portal coming soon (civilians only).
- Check out the [Gamechanger application](#) for researching DoD policies

### PEO STRI MISSION

PEO STRI will soon begin migrating under the Southeast Region.

PEO STRI (Program Executive Office for Simulation, Training and Instrumentation), headquartered in Orlando, Florida, is one of eleven Program Executive Offices in the U.S. Army. Their mission is to develop, acquire, provide, and sustain simulation, training, testing, and instrumentation capabilities to support Army readiness. Their converging OrgNet supports a number of other local DoD organizations that belong to the Team Orlando Modeling, Simulation and Training community including DEVCOM's STTC, AFC's STE-CFT, AMC's ACC-Orlando, the Air Force's AFAMS, and OSD's TRMC.

### NEWS FEEDBACK

Story Submissions,  
Comments, Dad Jokes, &  
Special Recognition Requests

### HAPPY ONE YEAR ANNIVERSARY!

Happy one year anniversary of The Southeast Scoop! We strive to include all four components of Knowledge Management within each publication of 'The Scoop': People, Processes, Tools, and Organization. We'd love to hear your feedback, as the newsletter should serve YOU as a member of the Southeast region. Thank you to all who have contributed over the past year!

[PLEASE CLICK HERE TO COMPLETE A BRIEF SURVEY!](#)

### MACRO ISSUE IN AUDS

**\*\*ISSUE\*\*:** AUDS does not have an exception for Office 365 Macros. Quite a few people use macros for various functions - the Budget department at Fort Novosel depends on macros for their applications to work, for example.

Before migrating to AUDS, users must ensure any macros they need for their daily functions are digitally signed to ensure they continue to work once they migrate to AUDS. AUDS will allow SIGNED macros, but if they are not signed, they will be blocked.

**\*\*RESOLUTION\*\*:** Developers must sign their macros. To sign a macro, you must first have a signing certificate.

For instructions on obtaining a signing certificate, view **section "4-18 Public Key Infrastructure code signing certificates"** (page 11) of the DA PAM 25-2-13 linked [HERE](#).

Once a certificate is obtained, the macro/project can be signed by following the steps linked [HERE](#).

### NEW FORT BENNING EMAIL GROUP

Fort Benning email lists have been updated due to its recent name change from Fort Moore. See the list of all regional email distribution lists [HERE](#). Note that membership is automated for the following groups.

SE RNEC Benning All: [sernec\\_benning\\_all@army.mil](mailto:sernec_benning_all@army.mil)  
SE RNEC Benning CIV: [sernec\\_benning\\_civ\\_all@army.mil](mailto:sernec_benning_civ_all@army.mil)  
SE RNEC Benning CTR: [sernec\\_benning\\_ctr\\_all@army.mil](mailto:sernec_benning_ctr_all@army.mil)

### STEWART SERVER TEAM

From left to right: Bruce Buggs (Hosting & Hoteling Branch Chief), William (Ashley) Kearney, Victor Butler, Rachel Fore, Greg Pierce, Geneice Walker, Tabbitha Moore, Travis Baskin, Carlos Lopez

*Not pictured: Matthew Poeschl, Jeff Farney, Chelsea Bryson, Charles Johnson, Adam Smith*

Tabbitha Moore, pictured above, is one of the newest members of the RNEC Server Services team. She has been with the RNEC two months now but has worked helpdesk going on a combined 20 years after joining the army as a signal support specialist in 2004. Tabbitha is originally from Kingstree, South Carolina and enjoys painting, gardening, and has played basketball since childhood!

Welcome aboard, Tabbitha!

### NIPR & SIPR FILE SHARE NOTES

Once users have switched to AUDS, they will no longer be able to access the file share. Users should continue to migrate their file share data to SharePoint Online. Please let Hosting & Hoteling Branch know once this is complete.

Additionally, the SIPR share drive migration to SIPR SPO must take place no later than 31 August 2025. View the NETCOM EXORD [HERE](#).

### FORT STEWART DA IG INSPECTION

The upcoming inspection at Fort Stewart RNEC, 7 – 10 April 2025, will assess the effectiveness of the Army's cybersecurity program across five functional areas and nine domains, contained within the National Institute of Standards and Technology Cybersecurity Framework version 1.0. The five areas include Detect, Identify, Protect, Recover, and Respond. Results of the inspection will serve as an indicator of how the organization is performing with FISMA compliance and will consist of personnel interviews and documentation checks.
