MEMORANDUM FOR Members of the United States Army Garrison-Stuttgart (USAG-S) Community

SUBJECT: USAG Stuttgart Command Policy Letter #44, Domestic Pet and Stray Animal Policy

1. References.

- a. Army Regulation (AR) 420-1, Army Facilities Management, 24 August 2012.
- b. Army in Europe (AE) Supplement 1 to AR 420-1, 20 November 2008.
- c. Army Policy - Domestic Animals on Army Installations, 16 August 2018
- d. AR 40-905, Veterinary Health Services, 29 August 2006.
- e. AR 40-5, Preventive Medicine, 12 May 2020.

2. Purpose.

- a. Define USAG Stuttgart's policy and responsibilities for members of the community regarding pets.
- b. Establish policies and procedures which will promote safe, secure, healthy, harmonious, and cooperative community living.

3. Applicability. This policy applies to all persons within the USAG Stuttgart community bringing animals onto USAG Stuttgart installations for any reason, including those who reside in USAG Stuttgart quarters.

4. Policy. Installation residents and employees in the workplace have the right to be free from disease, menace, noise, and waste caused by animals. Violators of this policy are to be reported to the Military Police (MPs) at the time of discovery and are subject to administrative actions including loss of pet privileges, action under the Uniform Code of Military Justice (UCMJ) or Civilian Misconduct Authority (CMA). MPs will respond to the incidents and determine what actions are required to immediately mitigate the situation and to issue citations, if required.

AMIM-SGG-ZA
MEMORANDUM FOR

a. All personnel assigned to USAG Stuttgart owning pets, regardless of the species or where they live, must register those pets at the Stuttgart Veterinary Treatment Facility (VTF) within two (2) weeks of arrival to Germany, or within two (2) weeks of acquiring the animal, if acquired during the tour.

b. **All personnel living off post must also register their dogs at their local town hall (Rathaus). Lack of registration may result in fines.**

c. All members of USAG Stuttgart are responsible for maintaining and controlling pets for which they are responsible. Personnel residing in Army Family Housing (AFH) are restricted to the number of pets described below and must adhere to the requirements and responsibilities of ownership detailed in references above and Host Nation laws. If personnel or their dependents are unable to adhere to the requirements and responsibilities, they may lose their privilege to maintain an animal in AFH.

d. All residents of AFH owning or keeping animals are responsible for all damages to government or private property caused by their pets.

e. Residents in Unaccompanied Personnel Housing (UPH) on USAG Stuttgart Installations are not authorized pets while housed in quarters regardless of designation.

5. Authorized number of pets.

a. **USAG Stuttgart residents are authorized two pets in AFH. Authorized pets include cats and dogs.**

b. Upon request, registered service animals will be exempt from the total number of pets allowed. Resident must provide appropriate service animal documentation for exemption. Furthermore, should a request for a service animal above the maximum number of pets be approved, no new request would be required in the event a pet dies or is rehoused. Emotional support pets will count against the total number of pets allowed.

6. Prohibited Animals. **Host nation laws prohibit the following breeds in Germany: Pit Bull Terrier, American Staffordshire Terrier, Staffordshire Bull Terrier, Bull Terrier or any combination thereof. Baden-Wurttemberg considers the following breeds as dangerous: Bull Mastiff, Dogo Argentino, Bordeaux Dogge, Fila Brasileiro, Spanish Mastiff, Neapolitan Mastiff, Mastiff, Tosa Inu. The Army considers the following breeds as dangerous: American Staffordshire Bull Terriers, English Staffordshire Bull Terriers, Rottweilers, Doberman Pinschers, Chows, and wolf hybrids.** Animals not permitted in AFH include, but are not limited to: all rodents, ferrets, all snakes and lizards, potbellied pigs, chickens, tarantulas,

AMIM-SGG-ZA
MEMORANDUM FOR

scorpions, frogs, etc.

7. Public Nuisance. Owners whose animal(s) are found to be a public nuisance may be required to remove them from AFH at the owner's expense. Public nuisance includes, but is not limited to: excessive barking/howling, an animal collected as a stray more than two (2) times in a six (6) month period, destruction of governmental or personal property, etc.

8. Animal bite/scratch incidents and revocation of pet privileges.

a. Pets that are known to bite will be muzzled and kept on a short leash, no longer than six (6) feet, to ensure proper control of the animal, when outdoors. An adult Family member will walk aggressive animals to better maintain control and better avoid an incident. Animals which habitually bite, scratch, attack, or otherwise threaten people's safety without provocation are a menace and will not be allowed in government facilities. A severe incident, such as a bite or an injury requiring medical care caused by a pet, warrants the removal of the offending animal, regardless of any prior incidents.

b. If an animal bites another animal, the owner(s) will notify the MPs immediately. The owner(s) will then contact the VTF at the earliest possibility: ideally within twenty-four (24) hours to schedule a bite quarantine examination.

c. If an animal bites or scratches a human, the human will go to the Medical Treatment Facility (MTF), if during business hours, or the local emergency room (ER) if after MTF hours depending on the severity of the injury. If seen at the ER, the person should notify the MTF the next duty day. The MTF will generate a bite-scratch report and notify the VTF of the incident per AR 40-905, paragraph 4-2c(5). The VTF will contact the owner of the animal, if possible, and schedule an appointment for a bite quarantine examination.

d. If, at the bite quarantine examination, it is determined a higher level of quarantine is necessary, the animal will be transported to a local German quarantine facility and will be quarantined at the owner's expense.

e. Where applicable, if the owner fails to report to the VTF, the Unit Commander or First Sergeant will be notified and will direct the owner to report to the VTF with the offending animal.

f. All animal bites will be entered on the daily blotter.

g. Any person or animal bitten by a stray animal should seek medical/veterinary attention immediately. Incidents involving strays will be reported to the MPs who will

AMIM-SGG-ZA
MEMORANDUM FOR

immediately attempt to locate the stray animal and will coordinate with the Directorate of Public Works (DPW), VTF, and local authorities for capture and quarantine.

9. Control of Pets.

a. Leashes, including retractable leashes, will not be over 16 feet long. Pets will always be kept on a leash when outside the owner's quarters, unless in the fenced yard of the owner's quarters or a designated play area i.e., a dog park. Any privately owned animal that is allowed to roam without restriction will be treated as a stray animal. Stray animals are defined as an uncontrolled animal that is homeless and ownerless.

b. Unauthorized pet locations. Pets of any kind are not allowed on designated playgrounds or historical monuments. Balconies are unauthorized unless the owner or a responsible custodian is with the animal. Pets must also remain at least 20 meters from schools and bus pick-up/drop-off areas.

c. Owners will pick up pet excrement immediately and dispose of it properly when out with the pet. Owners will ensure excrement does not accumulate in their yards. Pets will not be allowed to relieve themselves inside buildings, on balconies, on playgrounds, or on walkways.

d. Pets must never be left unattended in government quarters for more than 8 hours without coordinating for proper care. Owners are responsible for planning for the care of the pet when gone for an extended period to include TDY, deployment, or leave. If pets are left temporarily unattended in a vehicle, the owner is responsible to ensure there is sufficient fresh air and an acceptable air temperature.

e. The breeding of pets on government property is prohibited. More than one litter per year is considered a commercial enterprise. Offspring kept longer than six (6) months count against the total number of pets authorized above. Construction of kennels is prohibited.

f. Pets will be fed only in the resident's quarters or fenced-in yards and not on landings, balconies, or stairwells. Pets should not be left outdoors at night. Pets will not be locked in a spare room in any house or apartment, storage room, or building common areas. Outdoor housing for pets is prohibited.

g. Electronic shock collars (E-Collars) and/or prong collars used to train/discipline or exercise a pet are prohibited.

Tail docking and ear cropping of pets for purely cosmetic purposes is prohibited. Declawing is restricted unless extreme circumstances exist, and the procedure is

AMIM-SGG-ZA
MEMORANDUM FOR

medically warranted. Some breeds of hunting dogs, which meet various requirements, may be allowed to have their tails docked.

10. Abandonment of pets is a violation of this policy. Owners that abandon their pets are responsible for all costs incurred by the government in relation to the transfer, care, custody, and final disposition of the animal. Additionally, those owners may be subject to action under the UCMJ or CMAA.

11. Report improper control of pets to the MPs. Where applicable, copies of formal complaints will be provided to the owner's commanding officer for necessary action.

12. Animal Welfare.

a. Pet owners are responsible for the humane treatment of pets in their care and shall provide adequate shelter, nutrition, medical care, and companionship for their pets. Inhumane or abusive treatment of animals is prohibited and should be reported to the Military Police Desk.

b. A sanitation inspection (Health and Welfare) will be conducted on any house or apartment alleged to be substandard with cleanliness, odorous, or in which a pet has apparently been abandoned. Entry into the quarters will be in the presence of the sponsor or an adult Family member, unless immediate entry is required.

c. The feeding and/or sheltering of abandoned or stray animals is strictly forbidden. A stray animal is defined as any domestic animal that is not under the control of an owner. Personnel who provide food and/or shelter expose themselves and the community to health and safety risks. Personnel should not approach stray or abandoned animals. Personnel should call the MPs and report any stray or abandoned animals located on the installation.

d. **It is not allowed to permanently keep a dog/cat in a crate; Max time for puppies up to 2 hours, for adult animals max of up to 4 hours.**

e. **A dog must have the following floor space available:**

Withers (height in cm)	Minimum Floor Space (in sqm)
Up to 50	6
Between 50 and 65	8
More than 65	10

Half of that mandatory floor space must be added for each additional dog kept in the same kennel.

AMIM-SGG-ZA
MEMORANDUM FOR

13. Dead Animals. If a pet passes away in AFH, contact the VTF for disposal options. Depending on the method chosen by the owner, the VTF may charge for disposal of the animal. Burial of the animal on a military installation, to include housing areas, is prohibited. If you find a dead animal, contact DPW for disposal instructions.

14. Keep in mind that German law imposes liability on the animal owner or keeper for damages to public or private property and personal injury caused by the pet, whether the animal is in the owner's possession, lost, or abandoned. Liability insurance for pets may be purchased. If you choose to purchase insurance, it is recommended to have the insurance policy reviewed by the USAG-S Legal Assistance Office.

15. Proponent. The proponent for this memorandum is the USAG Stuttgart DPW Housing Division, DSN 548-4402 or CIV 0611-143-548-4402.
