BUREAU OF CONSULAR AFFAIRS
U.S. Department of State

Introducing e-CRBA

eCRBA is the Department of State's new online application for a Consular Report of Birth Abroad (CRBA). eCRBA does not require any new information or processes – applicants enter the same information in eCRBA as in the paper application. This new application method, however, will allow you to enter your data, upload required documents, pay the CRBA fee and receive expedited processing. Additionally, you will be able to check the status of your application online.
