

DEPARTMENT OF THE ARMY
INSTALLATION MANAGEMENT COMMAND
HEADQUARTERS, U.S. ARMY GARRISON ALASKA
1046 MARKS ROAD #6000
FORT WAINWRIGHT, ALASKA 99703-6000

**PROGRAMMATIC AGREEMENT AMONG
THE UNITED STATES ARMY GARRISON ALASKA,
THE ALASKA STATE HISTORIC PRESERVATION OFFICER, AND
THE ADVISORY COUNCIL ON HISTORIC PRESERVATION
REGARDING THE
OPERATION, MAINTENANCE, AND DEVELOPMENT OF ARMY-MANAGED
RESOURCES AT FORT WAINWRIGHT, FORT GREELY,
ASSOCIATED TRAINING AREAS AND OTHER PROPERTIES, ALASKA**

AK-PA-2202

WHEREAS, United States Army Garrison Alaska (USAG Alaska) proposes to continue to coordinate and administer an ongoing program of operation, maintenance, and development (O & M) on federally-owned facilities at Fort Wainwright, Fort Greely, associated training areas, and other properties; and

WHEREAS, *'The Memorandum of Understanding between the U.S. Department of the Interior Bureau of Land Management (BLM) Alaska and the U.S. Army Garrison Fort Wainwright concerning the Management of Lands in Alaska Withdrawn by Public Law 106-65 for Military Use'* outlines USAG Alaska's responsibility for the management of cultural resources for the purposes of Archaeological Resources Protection Act (ARPA) permitting, Native American Graves and Repatriation Act (NAGPRA) compliance, and the National Historic Preservation Act (NHPA) Section 110 inventory and Section 106 compliance for the period of time 2016 to 2026; and

WHEREAS, USAG Alaska carries out its program of O&M pursuant to Army Regulation, thereby projects associated with the aforementioned program, which may include ongoing operations, training, testing, maintenance and repair, rehabilitation, renovation, mothballing, cessation of maintenance, new construction, demolition, deconstruction and salvage, and remediation activities, may have an effect on properties eligible for listing on the National Register of Historic Places (NRHP) are considered undertakings subject to review under Section 106 of the NHPA of 1966, as amended, (54 United States Code (U.S.C.) § 306108), and its implementing regulations, 36 Code of Federal Regulations (CFR) § 800; and

WHEREAS, USAG Alaska has established a plan for implementation and a list of activities and criteria identified in **Exhibit A** against which undertakings will be compared for the application of a Streamlined Review Process which is consistent and compliant with the requirements of the NHPA; and

WHEREAS, USAG Alaska has determined that for the purposes of undertakings considered as part of this Programmatic Agreement (Agreement), the Areas of Potential Effects (APEs) for this agreement include Fort Wainwright, Fort Greely, the Fairbanks Permafrost Station, Tanana Flats Training Area, Chena River Research Site, Yukon Training Area, Donnelly Training Area, Gerstle River Training Area, Black Rapids Training Area, Whistler Creek Training Area, Sears Creek Pump Station, Tok Fuel Terminal, Whittier Fuel Terminal, Seward Military Resort, and Haines Fuel Terminal (“associated training areas and other properties”) as shown in **Exhibit B**; and

WHEREAS, this Agreement applies to all undertakings within APEs that are under the direct or indirect jurisdiction of USAG Alaska, including undertakings performed by USAG Alaska lessees, permittees, and tenant units, which are coordinated and approved by the Army; and

WHEREAS, USAG Alaska has determined that the aforementioned program may have an effect on properties eligible for listing on the NRHP, specifically, Fort Wainwright Building 4070 (FAI-01283) and Building 4391 (FAI-01789); Ladd Air Force Base Cold War Historic District (FAI-01288); the districts’ respective contributing properties (buildings and structures) identified, in **Exhibits C and D**, and archaeological sites or within the Ladd Field National Historic Landmark (NHL) (FAI-00236); and has consulted with the Advisory Council on Historic Preservation (ACHP) and the Alaska State Historic Preservation Officer (SHPO) pursuant to 36 CFR § 800.14(b); and

WHEREAS, the Fort Greely New Post Historic District (XMH-01275) was determined to be no longer eligible for the NRHP with SHPO concurrence received 2 December 2021; and

WHEREAS, the properties listed in **Exhibit E** on Fort Wainwright and Fort Greely have been addressed under Nationwide Program Alternatives or Program Comments for Capehart-Wherry Era Family Housing, Cold War Era Unaccompanied Personnel Housing, and World War II and Cold War Era Army Ammunition Storage Facilities; and

WHEREAS, USAG Alaska-managed lands shown in **Exhibit F** are areas where historic land management practices included demolition and bury-in-place; landfill of disposed materials, in distant proximity to their contemporary activity zones; and unregulated ground disturbance prior to the passing of the NHPA. Areas have experienced significant ground disturbance since military occupation and are considered legacy debris deposits or ground-disturbing activity areas. Items found in these areas during ground disturbance will be considered not eligible for the NRHP unless considered exceptionally significant by qualified cultural resources management staff or found in deeper, undisturbed soil (see Stipulation III.F.); and

WHEREAS, archaeological resources identified in **Exhibit G** are eligible for inclusion in the NRHP or have not yet been evaluated for the NRHP; and

WHEREAS, USAG Alaska-managed lands shown in **Exhibit H** are areas that have been previously surveyed for archaeological resources; and

WHEREAS, the areas of Fort Wainwright shown in **Exhibit I** are designated as operable units (OU) under the Fort Wainwright Federal Facilities Agreement (FFA) between the Army, Alaska Department of Environmental Conservation, and U.S. Environmental Protection Agency, and are being investigated and remediated under the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9601 et seq. (1980), as amended by the Superfund Amendments and Reauthorization Act (1986) and are subject to land use restrictions and/or environmental remediation outlined in detail in the Record of Decision for each OU in the FFA (see Stipulation III.G.); and

WHEREAS, the areas of Fort Greely shown in **Exhibit I** are known contaminated areas that are excluded from ground disturbing activities for cultural resource management due to concern for human health and safety; and

WHEREAS, USAG Alaska manages cultural resources under a current Integrated Cultural Resources Management Plan (ICRMP) for Forts Wainwright and Greely, renewed every five years and consulted with stakeholders; and

WHEREAS, pursuant to Army Regulation (AR) 200-1, the Army has designated the USAG Alaska Garrison Commander to serve as the agency official responsible for compliance with the requirements of the NHPA and the USAG Alaska Garrison Commander has appointed a government employee as Cultural Resources Manager (CRM) to implement those requirements and to “ensure that efforts to identify, evaluate, and treat historic properties consider the Secretary of the Interior’s Standards and Guidelines for Archeology and Historic Preservation, and are conducted under the supervision of personnel who meet applicable professional qualifications for undertaking such work.” (AR 200-1, 6-4(5)); and

WHEREAS, USAG Alaska CRM staff ensures that undertakings routinely employ the Secretary of the Interior Treatment Standards and established installation design guidelines; and

WHEREAS, per 36 CFR 800.14(b)(1), the Section 106 process allows for the development of programmatic agreements to more efficiently implement compliance when there are routine management activities or when effects on historic properties are similar and repetitive; and

WHEREAS, the NHPA requires that federal agencies shall, to the maximum extent possible, undertake the planning and actions necessary to minimize harm to a NHL that may be directly and adversely affected by an undertaking (36 CFR § 800.10); and

WHEREAS, USAG Alaska leadership holds biannual meetings with Alaska Native federally-recognized tribal government leaders during which all cultural resource

management activities are consulted, and all Section 106 correspondence and cultural resource management reports are sent to tribes for review and comment; and

WHEREAS, all lands managed by USAG Alaska have been subject to consultation with the Alaska Native community for the purposes of identifying culturally sensitive sites and Traditional Cultural Properties; and

WHEREAS, in accordance with 36 CFR § 800.6(a)(1), USAG Alaska has notified the Advisory Council on Historic Preservation (ACHP) of the potential for adverse effects on 16 December 2020, provided the specified documentation, and the ACHP has chosen to participate in the consultation pursuant to 36 CFR § 800(a)(1)(iii) on 23 December 2020; and

WHEREAS, in accordance with 36 CFR 800.10(c), USAG Alaska has notified the Secretary of the Interior (SOI) through the Interior Region 11 Office of the National Park Service of this consultation as it involves a NHL. The NPS has chosen to participate in the consultation and has been invited to sign this Agreement as a concurring party [on 17 December 2020]; and

WHEREAS, USAG Alaska invited the Fairbanks North Star Borough, a Certified Local Government, to participate in consultation pursuant to 36 CFR § 800.2(c)(3) and to be a concurring party to this Agreement pursuant to 36 CFR § 800.6(c)(3) on 16 December 2020 and it accepted on 6 January 2021; and

WHEREAS, USAG Alaska invited the Bureau of Land Management (BLM) to participate in consultation pursuant to 36 CFR § 800.2(c)(3) and to be a concurring party to this Agreement pursuant to 36 CFR § 800.6(c)(3) on 16 December 2020 and it accepted on 17 December 2020; and

WHEREAS, USAG Alaska has made offers of consultation to the Alaska Native federally-recognized tribes Village of Dot Lake, Healy Lake Village, Nenana Native Association, Northway Village, Native Village of Tanacross, and Native Village of Tetlin (Tribes) pursuant to 36 CFR § 800.6(c)(2) and invited them to be concurring parties to this Agreement pursuant to 36 CFR § 800.6(c)(3) on 16 December 2020 and no tribes accepted the offer to consult as of 14 January 2021; and

WHEREAS, USAG Alaska invited the Tanana Yukon Historical Society (TYHS) and University of Alaska Fairbanks Museum of the North (UAF) to participate as consulting parties on 16 December 2020, and TYHS accepted on 6 January 2021 and UAF accepted on 7 January 2021; and

WHEREAS, in accordance with 36 CFR § 800.14(b)(2)(ii), USAG Alaska has arranged for public participation by placing notice of this Agreement on the USAG Alaska Directorate of Public Works (DPW) Environmental Division website at <https://home.army.mil/alaska/index.php/fort-wainwright/garrison/public-works/environmental>; and

WHEREAS, this Agreement supersedes the 2016 *Programmatic Agreement between the United States Department of the Army and the Alaska State Historic Preservation Officer regarding the Operation, Maintenance, and Development of the Army Installation at Fort Wainwright and Associated Training Areas*, [amended in 2020 to extend the terms for management of historic properties to those at Fort Greely], upon its execution on the date signed by the ACHP; and

NOW, THEREFORE, USAG Alaska, the SHPO, and the ACHP agree that the program of O & M at Fort Wainwright, Fort Greely, associated training areas, and other properties shall be administered in accordance with the following stipulations to satisfy the Army's Section 106 responsibilities for all individual undertakings of the program.

STIPULATIONS

The USAG Alaska Garrison Commander, on behalf of the Army, shall ensure that the following measures are carried out:

I. RESPONSIBILITIES AND DUTIES

A. USAG Alaska shall employ, maintain a contract with, or obtain through other means qualified professionals that meet the Secretary of the Interior's Professional Qualifications Standards (48 FR 44738-9) in disciplines appropriate to the installation's historic properties to serve as installation cultural resources management staff and carry out the cultural resources management tasks. The cultural resources management staff shall be headed by a CRM who supervises the cultural resources management staff. The USAG Alaska Garrison Commander shall ensure that the qualified professionals are in place or available upon the execution of this Agreement and throughout its duration.

B. If USAG Alaska does not have appropriate staff, those undertakings normally reviewed by the respective staff will not qualify for streamlined review and will need to follow standard Section 106 procedures as outlined in 36 CFR § 800.

C. The USAG Alaska Garrison Commander shall ensure that the CRM participates in installation-level planning of projects and activities that may affect historic properties. The USAG Alaska Garrison Commander shall ensure that the CRM, in consultation with the cultural resource management staff, reviews all undertakings that are carried out in accordance with the terms of this Agreement.

II. STREAMLINED REVIEW

A. The USAG Alaska Garrison Commander shall ensure that installation planning documents are provided to the CRM to identify specific undertakings that may be subject to review pursuant to Section 106 and the terms of this Agreement. The documents to be analyzed shall include, but are not limited to, the Master Plan, work

orders, military construction plans, troop training and range operation plans, ICRMP, lessee, permittee, and tenant activities, and historic property renovation and demolition plans that are scheduled for implementation within the duration of this Agreement.

B. The USAG Alaska Garrison Commander shall ensure that all undertakings and installation planning documents are reviewed and carried out in accordance with the terms of this Agreement. The USAG Alaska Garrison Commander shall include a list of undertakings in the report required pursuant to Stipulation VIII for annual review by the SHPO and concurring parties to this Agreement.

C. Where the CRM, in consultation with cultural resources management staff, determines the criteria outlined in Stipulation II.D are met for a proposed undertaking, then the undertaking qualifies for the streamlined review process and no further consultation with consulting parties is required prior to project execution.

D. Streamlined Review Process:

In connection with the staffing and responsibilities identified above, the following conditions must be met for an undertaking to be considered eligible for the streamlined process.

1. *Identify the Undertaking's Area of Potential Effect (APE)*: The CRM, in consultation with cultural resources management staff, shall define and document the project's APE for each specific undertaking, appropriate to the scope and scale of the undertaking, taking into account direct, indirect, and cumulative effects.

2. *Identify Historic Properties within the APE*: The CRM, in consultation with cultural resources management staff, shall identify previously identified historic properties within the APE. If properties are located within the APE that have not yet been evaluated for eligibility for inclusion in the NRHP, or if the SHPO has not yet concurred with the eligibility determination, compliance for the undertaking must be accomplished through the standard review process as outlined in 36 CFR § 800. Inventory records shall be periodically reviewed and updated to confirm historic property information is accurate. If the APE has not been previously surveyed for cultural resources, and is not within an area exempted from survey due to prior disturbance or prohibited by Army/DOD regulation based on its location within a contaminated or impact area, an appropriate level of survey shall be completed within the APE to evaluate the eligibility of any cultural resources present, except in areas prohibited by Army regulation.

3. *Assess the Effect of the Undertaking on Historic Properties within the APE*: The CRM, in consultation with cultural resources management staff, shall assess the effect of the proposed undertaking, including direct, indirect, and cumulative effects on historic properties, in accordance with 36 CFR § 800.4(d) or, if appropriate, by applying the Criteria of Adverse Effect set forth in 36 CFR § 800.5(a)(1). Additionally, the CRM may engage staff at the ACHP, SHPO, and NPS to seek professional expertise when

evaluating the effect of the undertaking to ensure the most prudent determination is made.

4. *Evaluate the Proposed Undertaking for Streamlined Review:* The CRM, in consultation with cultural resources management staff, shall determine whether the proposed undertaking meets the criteria for streamlined review. If the undertaking is found by the CRM to result in direct or indirect adverse effects to any historic property(ies), it must be reviewed in accordance with 36 CFR § 800.

5. *Document the Streamlined Review Process:* If, after following steps one through four (1-4) listed above, the CRM in consultation with the cultural resources management staff determines that there are no historic properties within the APE, or that the proposed undertaking would result in a determination of “no historic properties affected” or “no adverse effect,” the undertaking qualifies for the streamlined review. The CRM, in consultation with the cultural resources management staff, shall document the determination as follows:

a) The undertaking will be entered into the log that is used to record all actions taken on USAG Alaska properties as recorded through work orders, service orders, Records of Environmental Concerns (RECs), and checklists for activities executed by USARAK Range Control, Cold Regions Test Center (CRTC), or other entities.

b) The log will include any identifying numbers for cross reference, the building, structure, or site affected, a description of the undertaking, the date of review, the streamline review code that defines the undertaking, the personnel performing the review, and any other comments deemed necessary to clarify the reason for streamlining. Prior to submission of the log to SHPO and interested parties, all entries will be reviewed for accuracy by the CRM.

c) Logs will be permanently retained by the CRM for possible review by consulting parties and to facilitate preparation of the annual report (Stipulation VII.A.1).

III. PROTECTION OF HISTORIC PROPERTIES

A. USAG Alaska shall be required to protect all historic properties; sites/resources not yet assessed for NRHP eligibility; and properties of traditional, religious, and cultural importance (collectively referred to as protected resources) utilizing one or more of the site protection measures described below.

1. High protective measures—defined as placement of Seibert stakes, hedgehogs or other blockading devices, signage, or a combination thereof—shall be installed where protected resources are at risk of damage from heavy mission or recreation traffic. In addition to the physical protection measures, the geospatial data will be maintained within the USAG Alaska’s records.

2. Standard protective measures—defined as solely maintaining the geospatial data within the USAG Alaska’s database of record in lieu of utilizing high protective measures—shall be utilized when protected resources are located in terrain-protected areas or the likelihood of damage from mission or recreation vehicles and users is low. As determined by the CRM and cultural resources management staff, standard protective measures may also be utilized at protected resources located in areas where it may be better served not to use high protective measures (e.g., in order to not attract undue attention or if sites have a determination of eligibility that is disputed).

B. USAG Alaska shall periodically monitor or conduct condition assessments for protected resources periodically to confirm the adequacy of the protection measure employed. Monitoring and associated documentation shall follow the procedures set forth in the ICRMP. USAG Alaska shall propose updates to the monitoring frequency in response to observations or changes in technological capabilities. Proposed updates will be identified in the Annual Report, as provided for in Stipulation VII.A.2 of this Agreement.

C. USAG Alaska shall work with Range Control, project managers, unit exercise planners, and other relevant personnel to provide units a means of knowing the locations of protected resources while involved in training exercises.

D. If USAG Alaska becomes aware that any historic property on Fort Wainwright, Fort Greely, or associated properties has been inadvertently damaged by an action or undertaking not in conformity with the review process set out in this Agreement or other applicable agreement, the USAG Alaska Garrison Commander will report how the damage occurred and the extent of damage to the historic property involved to the SHPO in accordance with 36 CFR § 800.13(b) with appropriate mitigation to follow.

IV. POST-REVIEW DISCOVERIES

A. In the course of conducting approved activities, USAG Alaska and/or their contractors shall not intentionally or knowingly affect (remove/disturb) any cultural resources outside of the approved scope of work.

B. In the event that a previously unidentified non-NAGPRA-related cultural resource is discovered during project activities, all work shall immediately cease in the area of the discovery until the post-review discovery process is completed. USAG Alaska CRM and cultural resources management staff shall evaluate the resource and notify the SHPO and consulting parties to this Agreement regarding such discoveries and related actions within three (3) business days after discovery. USAG Alaska shall notify Tribes, as determined appropriate by the CRM, regarding such discoveries and related actions within three (3) business days after discovery unless the find(s) qualify for item F below. USAG Alaska shall ensure that any archaeological work that may be necessary shall be completed in accordance with the NHPA and the ARPA.

C. USAG Alaska and, if they so request, the SHPO, Concurring Parties, and/or Tribes, shall immediately inspect the work site to determine the nature and area of the affected cultural resource. Within ten (10) business days of the original notification of the discovery, the USAG Alaska CRM, in consultation with the SHPO, Concurring Parties, and Tribes where appropriate, shall determine the NRHP eligibility of the resource.

D. If it is determined that the cultural resource does not meet NRHP criteria as set forth at 36 CFR § 60.4, as amended, USAG Alaska may resume work in the affected area.

E. If USAG Alaska determines that the cultural resource meets NRHP criteria, USAG Alaska shall determine actions to resolve adverse effects and provide SHPO and Tribes an opportunity to comment as expeditiously as possible and before the actions are carried out. The CRM will provide a report of actions when they are completed to SHPO and Tribes.

F. If the post review discovery is within an area defined as a location of historic military land management practices, including demolition and bury-in-place, burial as debris in distant proximity to their contemporary activity zones, or unregulated ground disturbance, qualified staff will photo-document the found items and make a determination of significance. Items determined to be historically significant will be address with the SHPO. Items determined to not be historically significant will be reported in the annual report in accordance with Stipulation VIII.A.2 and treated as debris.

G. Unanticipated cultural resources discovered over the course of remediation activities will be addressed on a case-by-case basis. While areas of environmental remediation (see Exhibit I) are typically not managed for cultural resources due to health and human risk factors, USAG Alaska CRM and cultural resources management staff will make project managers aware of the possibility of cultural resources and aware that, should items be discovered, work must cease and the USAG Alaska Environmental Division must be contacted.

V. INADVERTENT DISCOVERIES

A. If human remains are inadvertently discovered, USAG Alaska shall comply with all State and Federal laws pertaining to human remains and notify the SHPO within 24 hours of discovery. Human remains will be treated with dignity and respect.

B. USAG Alaska shall cease all work and ensure that the remains are secured from further disturbance or vandalism as required by Alaska Statute (AS) 11.46.482(a)(3).

C. Following AS 12.65.5, USAG Alaska shall immediately notify the appropriate law enforcement authorities, the Alaska State Troopers Missing Persons Bureau, and the Alaska State Medical Examiner's office. If required by the State Medical Examiner

(SME), a professional archaeologist on site will assist in determining the age of the remains and whether or not further investigation is required.

D. If the SME and field archaeologist determine that the remains are Native American, the USAG Alaska Garrison Commander shall immediately undertake any actions necessary under the NAGPRA, as amended (PL 101-601; 25 U.S.C. § 3001-30013; 104 Stat. 3048-3058; 43 CFR § 10) and consulted with Tribes. USAG Alaska shall then immediately notify the SHPO and consult with the SHPO to identify descendants or other interested parties, if any.

E. USAG Alaska, in consultation with the SHPO and any interested parties, shall develop a plan for the respectful treatment and disposition of the remains.

F. Work may resume in affected areas after approval by the USAG Alaska CRM and the SHPO.

VI. EMERGENCY ACTIVITIES

A. Emergency situations are those deemed necessary by USAG Alaska as requiring immediate and direct response due to (i) a disaster or emergency declared by the President of the United States, the governor of a state, or the USAG Alaska Garrison Commander or (ii) other immediate threats to life or property.

B. If a natural disaster (e.g. tornado, flooding, or other inclement weather); earthquake; fires; sudden disruption of utility services; environmental spills of hazardous substances, pollutants, or contaminants; or other event with the potential to immediately threaten life or property occurs, USAG Alaska may take immediate actions to address the event without first having to undergo Section 106 review. If human remains are discovered in the course of responding to an emergency situation, applicable laws will be followed.

C. In the case of an emergency, activities/response work will take into consideration that historic properties may be affected by recovery or emergency repair efforts and USAG Alaska shall perform those actions necessary using commercially reasonable efforts to protect cultural resources with on-site monitoring of the emergency activities by staff meeting the Secretary of the Interior's Professional Qualifications Standards to minimize effects to cultural resources. When possible, such emergency measures shall be undertaken in a manner that is consistent with Secretary of the Interior's Standards and Guidelines and will be conducted in a manner that does not foreclose future preservation or restoration of historic properties.

D. This emergency provision is limited to work initiated within ten (10) calendar days of, and in direct response to, an emergency.

E. If emergency action is required and undertaken, USAG Alaska shall provide such information to the SHPO, via email, as soon as practicable and will follow up with written

documentation if any historic properties were discovered or disturbed as a result of emergency response actions. The SHPO shall have ten (10) days to review and comment on any such proposed plan for further actions to address the emergency and actions to resolve adverse effects.

F. All emergency response actions involving a historic property/protected resource will be documented in the Annual Report as required by Stipulation VII.A.2.

VII. REPORTING AND ANNUAL REVIEW

A. The USAG Alaska Garrison Commander shall provide the SHPO, concurring parties, and interested consulting parties with two annual reports detailing work from the calendar year and described here.

1. A Streamlined Review report will include the streamlined review log described in Stipulation II.D.5. The Streamlined Review report will be submitted on or before January 31 of the following year.

2. The USAG Alaska Cultural Resources Program Annual Report will convey all work related to surveys, determinations of eligibility, post review discoveries, site protection measures, NAGPRA-related activities, ARPA-related activities, and other relevant management practices performed and not otherwise reported to the SHPO. This report will be submitted on or before October 1 of the following year.

B. The USAG Alaska Garrison Commander shall ensure that the annual reports are available for public inspection, redacted where appropriate, and that interested members of the public are made aware of their availability through the USAG Alaska DPW Environmental Division website.

C. Consulting parties may request a meeting pertaining to the annual reports within sixty (60) days of receiving each report.

VIII. AMENDMENTS

A. Any signatory to this Agreement may propose to USAG Alaska that the Agreement body and stipulations be amended. If USAG Alaska concurs that the amendment improves or updates the Agreement, it shall consult with the other parties to this Agreement to consider such amendment in accordance with 36 CFR § 800.6(c)(7). USAG Alaska will share the proposed amendment with the Consulting Parties for a 30-day review and comment period. USAG Alaska will consider all timely comments received and incorporate changes. USAG Alaska will initiate the signature process and, upon completion, send a revised, fully executed version to the Consulting Parties. If a Consulting Party objects to the changes, USAG Alaska will follow the steps in Stipulation VI. Dispute Resolution.

B. USAG Alaska may revise Exhibits B through I at any time without necessitating an amendment. USAG Alaska will notify the Consulting Parties of any updates and provide a copy of the revised Exhibit at the next possible Cultural Resources Working Group meeting.

C. Exhibit A. Implementation of the Streamlined Review Process and Accepted Criteria, may be revised without necessitating an agreement amendment, but requiring written approval from the signatories. USAG Alaska will notify the Consulting Parties of any updates and provide a copy of the revised Exhibit A at the next occurring Cultural Resources Working Group meeting. If a Consulting Party objects to the changes, the USAG Alaska will follow the steps in Stipulation VI. Dispute Resolution.

IX. DISPUTE RESOLUTION

A. Should any signatory or concurring party to this Agreement object in writing to USAG Alaska regarding any action carried out or proposed with respect to the implementation of this Agreement, USAG Alaska shall consult with the objecting party. If after initiating such consultation USAG Alaska determines that the objection cannot be resolved through consultation, it shall forward all documentation relevant to the objection to the ACHP, including USAG Alaska's proposed resolution/response to the objection. Within thirty (30) calendar days after receipt of all pertinent documentation, the ACHP shall exercise one of the following options:

1. Advise USAG Alaska that the ACHP concurs with USAG Alaska's proposed response to the objection, whereupon USAG Alaska will respond to the objection accordingly; or

2. Provide USAG Alaska with recommendations, which USAG Alaska shall take into account in reaching a final decision regarding its response to the objection; or

3. Notify USAG Alaska that the objection will be referred to the ACHP membership for formal comment, proceed with the referral and make comment to USAG Alaska within forty-five (45) calendar days. USAG Alaska, in accordance with Section 110(I) of the NHPA, shall take the resulting comment into account.

B. If the ACHP fails to advise within 45 calendar days, USAG Alaska may make a final decision on the dispute and proceed accordingly, providing to all parties a written response to the objection that takes into account timely comments.

C. USAG Alaska's ability and responsibility to carry out undisputed actions are unaffected by any dispute

D. Should any member of the public raise a timely and substantive objection pertaining to the manner in which the terms of this Agreement are carried out, at any time during its implementation, USAG Alaska shall take the objection into account by consulting with the objector to resolve the objection. When USAG Alaska responds to

an objection, it shall notify all consulting parties of the objection and the manner in which it was resolved. The USAG may request the assistance of a consulting party to resolve an objection.

X. TERMINATION

A. If the USAG Alaska Garrison Commander determines that the Army cannot implement the terms of this Agreement, or if the SHPO or the ACHP determines that the Agreement is not being properly implemented, USAG Alaska, the SHPO, or the ACHP may propose to the other parties to this Agreement that it be terminated.

B. The party proposing to terminate this Agreement shall notify all parties to the Agreement, explaining the reasons for termination and affording them at least thirty (30) days to consult and seek alternatives to termination. Should such consultation fail and the Agreement be terminated, the Army shall:

1. Consult in accordance with 36 CFR § 800.14 to develop a new Agreement; or,
2. Comply with 36 CFR § 800 Subpart B with regard to each future undertaking.

XI. ANTI-DEFICIENCY ACT

Federal obligations under this Agreement are subject to the availability of appropriated funds, as mandated by the Anti-Deficiency Act (31 U.S.C. § 1341). USAG Alaska will make reasonable and good faith efforts to secure the funds necessary to promptly implement this Agreement in its entirety. If compliance with the Anti-Deficiency Act impairs or precludes the Army's ability to implement this Agreement, the USAG Alaska will consult in accordance with the amendment and termination procedures found at Stipulations VIII and X of this Agreement.

XII. DURATION AND EXECUTION

A. This Agreement shall take effect on the date it is signed by the last signatory and will remain in effect unless terminated pursuant to Stipulation X. If not renewed or extended, this Agreement will expire nine (9) years after the date of the last signature to this Agreement. No extension or modification will be effective unless all signatories have agreed in writing.

B. Execution and implementation of this Agreement evidences that USAG Alaska has afforded the ACHP a reasonable opportunity to comment and that USAG Alaska has taken into account the effects on historic properties.

C. In the event that another federal agency not initially a party to or subject to this Agreement receives an application for funding/license/permit for an Undertaking described in this Agreement, that agency may fulfill its Section 106 responsibilities by stating in writing it concurs with the terms of this Agreement and notifying USAG Alaska,

SHPO, and the ACHP that it intends to do so. Such agreement shall be evidenced by execution of a signature page and filing with the ACHP, and implementation of the terms of this Agreement.

Exhibit A:
Implementation of the Streamlined Review Process and Accepted Criteria
REVISED MARCH 2022

Stipulation II.D will be applied to all undertakings. If the Streamlined Review Process is applicable, the following Steps I and II will be followed and determinations will be recorded in an annual report per Stipulation VIII. This process will satisfy the installation's compliance with Section 106 of the National Historic Preservation Act (NHPA) of 1966 as implemented by 36 CFR § 800.

Step I.

Step II. The following streamlined undertakings have been consulted on for the purposes of an alternative compliance with NHPA Section 106 review and agreed to by signatories of this Programmatic Agreement.

1. External and Administrative Work, including:

- a. Repair, replacement, maintenance, or hardening of retaining walls or other slope stabilization systems.
- b. Repair, replacement, or maintenance of culvert systems within waterways, provided the excavation will not disturb more soil than previously disturbed.
- c. Repair, replacement, maintenance, or hardening of underground utilities and above-ground utility access points within previously disturbed rights of way and under existing roads or walkways (including sewer, water, storm drains, electrical, gas, communication).
- d. Repair, replacement, or maintenance of roadways, driveways, parking lots, trails, and walkways, to include paving/resurfacing of existing hardened areas (e.g., parking areas, sidewalks, sports courts, playgrounds), where the proposed work does not exceed the depth and breadth of previously disturbed soil or vegetation and any material composition is sympathetic to historic properties.
- e. Repair, replacement, maintenance or installation of headbolt heaters, light posts, street signs, and power meters as necessary for public safety or to meet Army energy use mandates.
- f. Repair, replacement, maintenance or installation of communication equipment such as cellular towers and related equipment.
- g. Repair, replacement, maintenance, installation, or removal of temporary structures to include tents, classrooms, storage sheds, **foot bridges**, and construction equipment, provided such items are not prominent in the view shed of a historic property.
- h. Repair, replacement, maintenance, installation, or removal of temporary equipment such as generators, weather monitoring equipment, airfield management equipment, and military devices provided such items are not prominent in the view shed of a historic property.
- i. Repair, replacement, maintenance, installation, or removal of temporary barriers (e.g. jersey barrier, chain link fence, etc.), polyethylene sheeting, or tarps, provided such items are not prominent in the view shed of a historic property.
- j. Maintenance and repair of existing landscape features, including plantings, trees, and shrubs provided that any new vegetation is a replacement in-kind of existing historic planting in regard to location and species.
- k. Installation of signage, not affixed to nor within the view shed of historic properties.
- l. Repair, replacement, and extension of utility **or pipe** lines in areas of previous disturbance.

m. Performance of geotechnical testing, environmental sampling, shovel tests, and other standard survey activities. **(for non-Restoration activities; Restoration see 7.g.)**

n. Repair, replacement, maintenance, installation, or removal of play equipment and safety surfacing.

o. Issuance of administrative real property vehicles, including but not limited to new or renewing permits, leases, and right-of-ways where no new construction, footprint extension, or greater than in-kind replacement will occur.

p. Maintenance and repair; rehabilitation; renovation; mothballing; cessation or maintenance; new construction; demolition; deconstruction and salvage; remediation activities; and transfer, sale, lease, and closure of World War II and Cold War era ammunition storage facilities. (per ACHP Program Comment and included to maintain consistency of the administrative record)

q. Maintenance and repair; rehabilitation; layaway and mothballing; renovation; demolition and replacement; and transfer, sale, or lease out of Federal control of Capehart and Wherry Era Army family housing, associated structures, and landscape features. (per ACHP Program Comment and included to maintain consistency of the administrative record)

r. Maintenance and repair; rehabilitation; renovation; mothballing; cessation or maintenance; new construction; demolition; deconstruction and salvage; remediation activities; and transfer, sale, lease, and closure of Cold War era unaccompanied personnel housing (UPH). (per ACHP Program Comment and included to maintain consistency of the administrative record)

s. New construction that is located on surveyed lands (surveys where no sites were found) and outside of the boundary or viewshed of historic properties/districts.

2. Roads, Roadways, Railroads, Landing Zones, and Airstrips, including:

a. Repair or replacement using in-kind materials of roads, including the number and width of lanes, shoulders, medians, curvature, grades, clearances, and side slopes.

b. Minor widening of less than ten feet beyond the existing right-of-ways.

c. Repair, replacement, maintenance, installation, or removal of traffic control devices such as traffic signs and signals, delineators, street lights, and pavement markings.

d. Repair, replacement, maintenance, installation, or removal of linear features such as fences, sidewalks, bike paths, curbs, guardrails, **and gates**.

e. Repair, replacement, maintenance, installation, or removal of railroad track, ties, safety components, and crossings.

f. Repair, replacement, maintenance, installation, or removal of airstrips or landing zones within the existing footprint.

3. Building Activities – Interior Work, including:

- a. Repair or replacement of any interior finish when it does not adversely affect character-defining features as defined in concurrence with the SHPO.
- b. Repair, replacement, maintenance, installation, or removal of any furnishing, appliance, device, system, or system part when it does not adversely affect interior character-defining features as defined in concurrence with the SHPO.
- c. Removal or installation of interior walls when it does not adversely affect interior character-defining features as defined in concurrence with the SHPO.

4. Buildings Activities --Exterior Work, including:

- a. Repair or in-kind replacement of porches, exterior siding, doors, stairs, or trim.
- b. Repair or in-kind replacement of roofing, awnings, soffits, or fascia boards.
- c. Application of snow guards on roof surfaces.
- d. Repair or in-kind replacement of existing signage.
- e. Repair or in-kind replacement of existing outdoor lighting fixtures.
- f. Repainting of surfaces with in-kind colors.
- g. In-kind replacement of windows.
- h. Temporary stabilization bracing or shoring.
- i. Repair, in-kind replacement, or bracing of chimneys and fireplaces.
- j. Repair or maintenance of masonry foundations, walls, or chimneys.
- k. Repair, replacement, maintenance, installation, or removal of security features, such as window bars, security lighting, and emergency lighting.

5. Military Training and Testing, including:

- a. Dismounted maneuvers.
- b. Vehicular maneuvers and training that results in ground disturbance.
- c. Weapons qualification exercises on existing ranges.
- d. Continued use of existing training roads and trails.
- e. Testing of materiel and methods.
- f. Digging of berms, foxholes, trenches, and similar by hand or mechanical means.
- g. ***Training lands clean-up activities.***

h. Maintenance, restoration, modification, or construction of new training features that are located on surveyed lands (with negative outcomes) and outside of the boundary or viewshed of historic properties/districts.

6. Natural Resource and Training Lands Management, including:

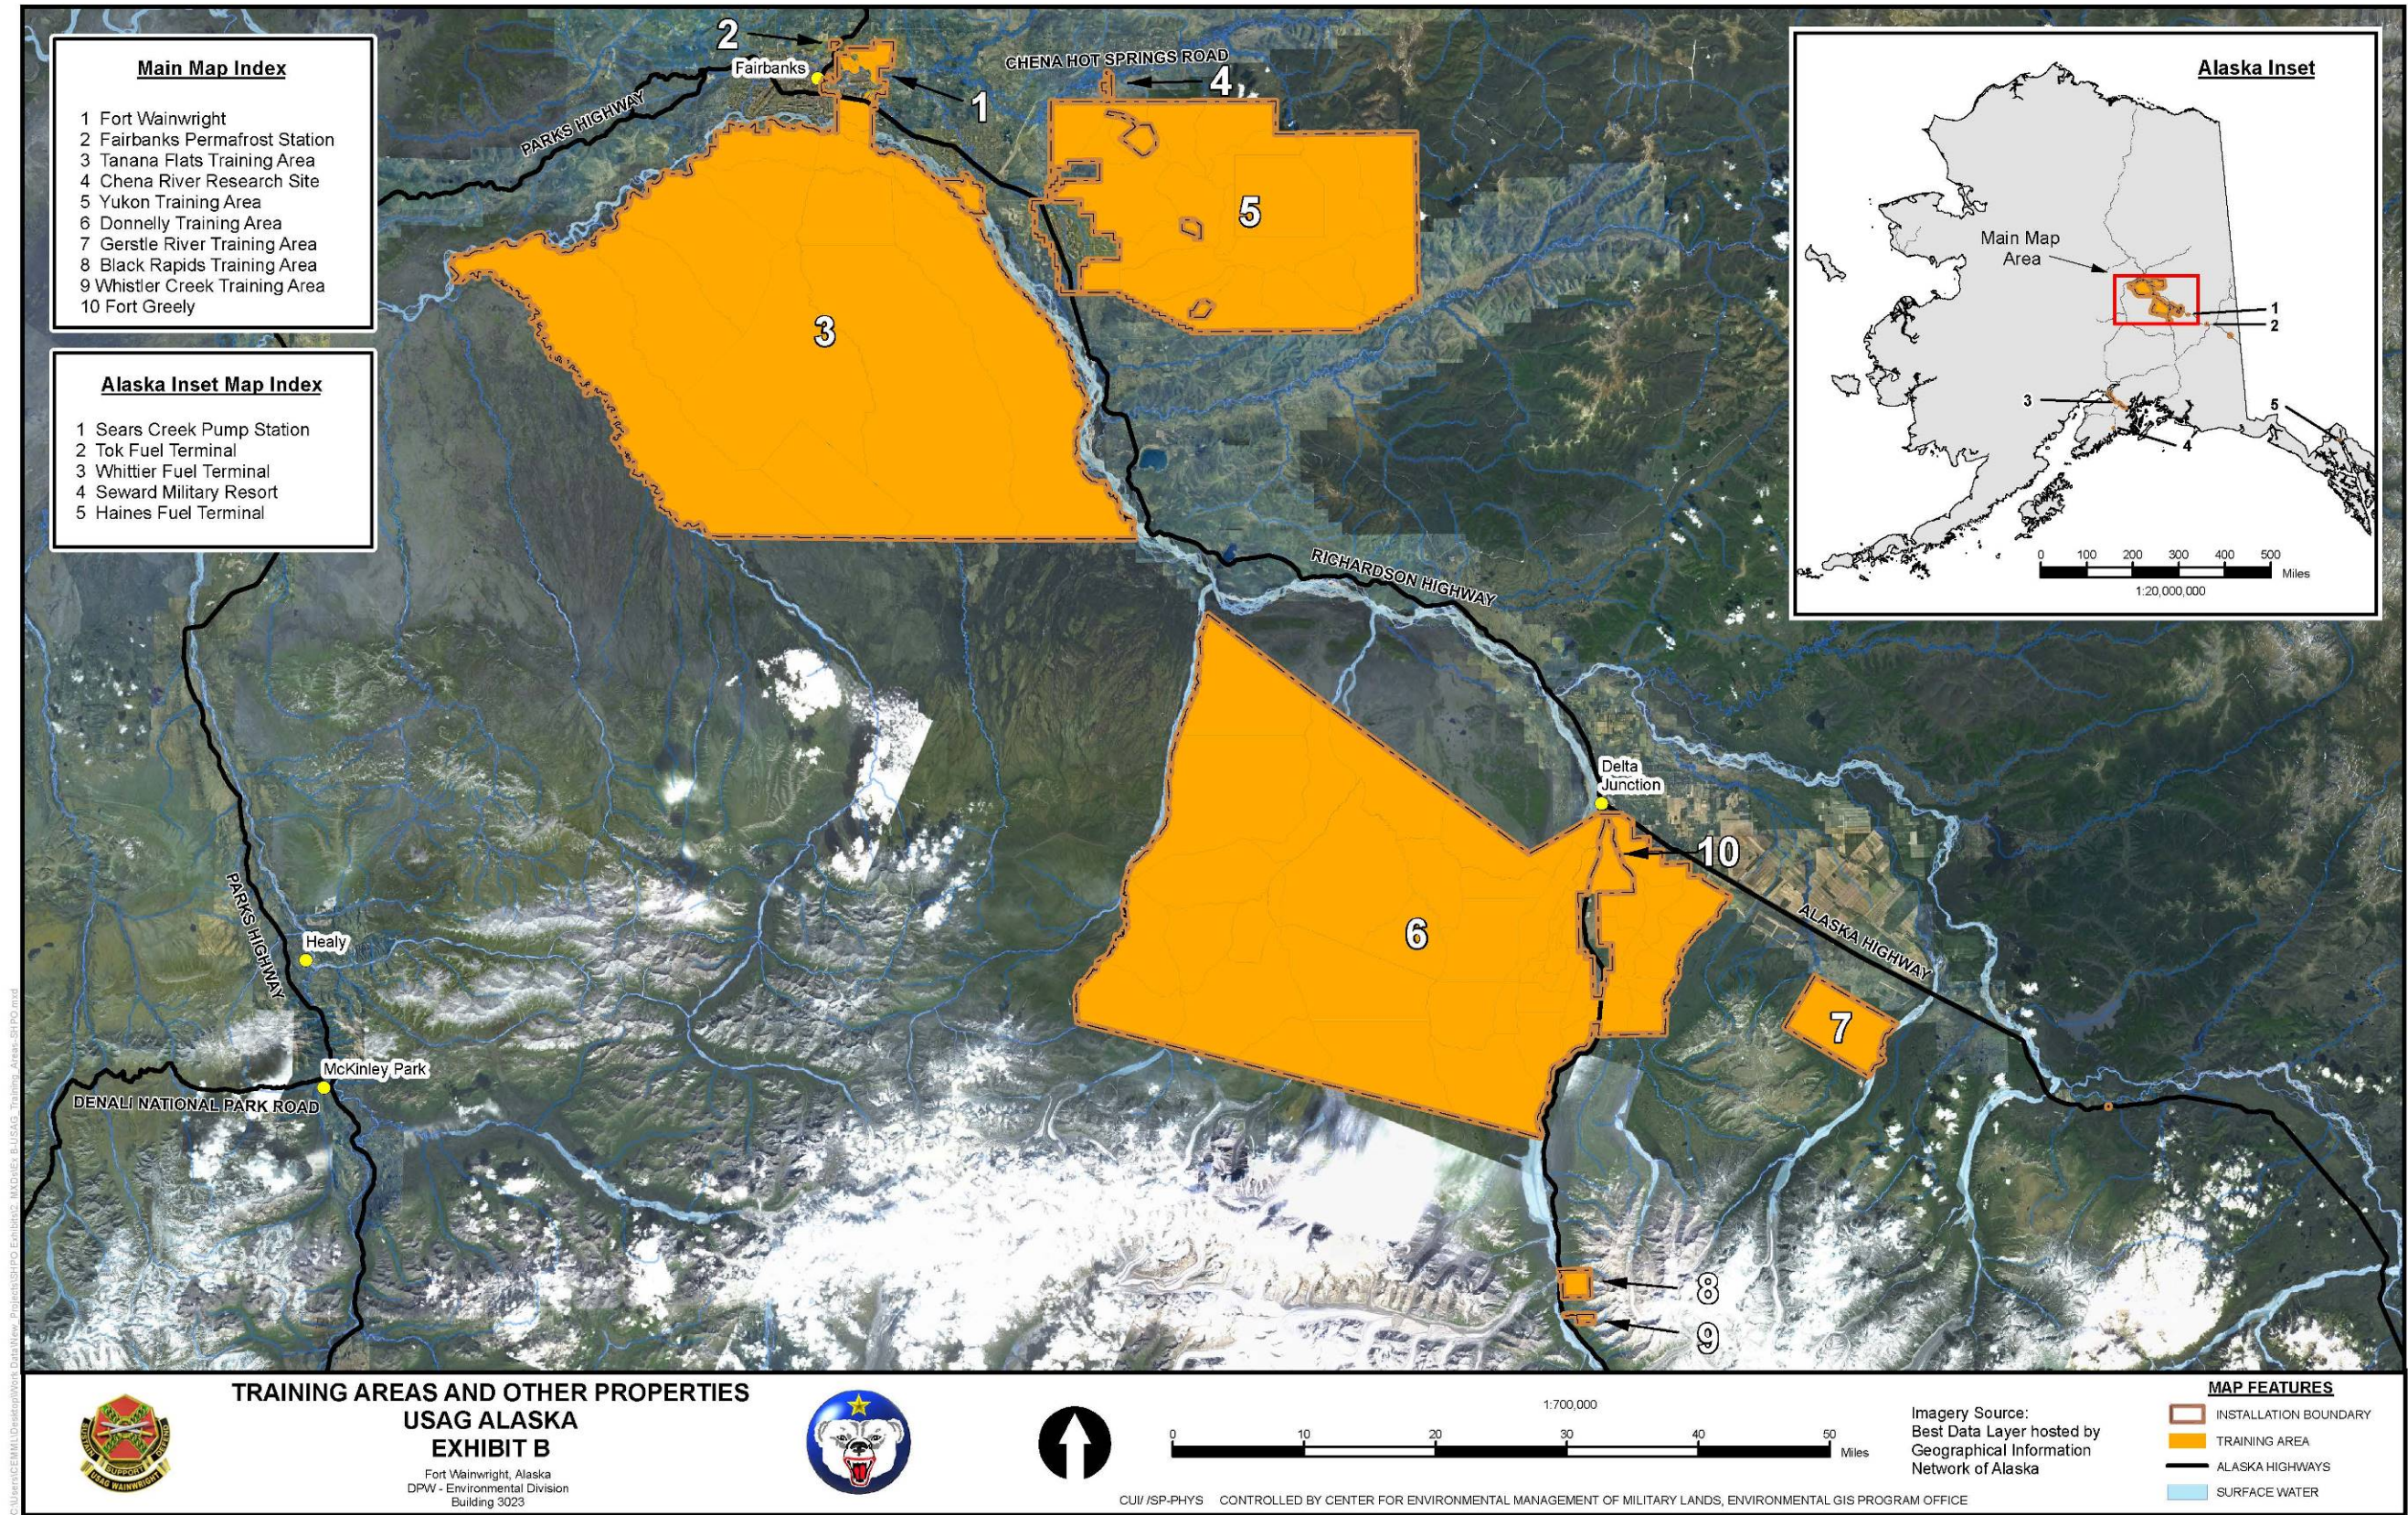

- a. Stabilization or restoration of waterbody banks.
- b. Restoration of vegetation in previously disturbed areas.
- c. Erosion control measures and trail hardening.
- d. Excavation of soil or rock from borrow pits and quarries.
- e. Placement or removal of temporary scientific devices.
- f. Placement or removal of barriers intended for traffic management such as hedgehogs, Seibert stakes, and the like.
- g. Prescribed fire operations to include maintenance of firebreaks, emergency (active fire/hasty) fire breaks, maintenance and repair of earthen/erosion control structures, fire suppression activities, and prescribed burns.
- h. Tree cutting, timber harvesting, fire fuels removal, and mowing.
- i. Permitting for natural resources-related concerns such as stocking fish or filling wetlands.
- j. Application of bat, bird, or rodent exclusionary measures on buildings.
- k. Removal of pests or evidence of their inhabitation.
- l. Replacement of trees, shrubbery, or landscaping with historically similar (in type, height, and mass).
- m. Removal of sediment from water features, including rivers, creeks, lakes, ponds, and ditches.
- n. Installation of pest-exclusion and capturing devices in a manner that is reversible and causes minimal damage to the historic fabric of a building.

7. Emergency and Remediation Activities, including:

- a. Placement of temporary, non-destructive site barriers to provide compliance with Department of Defense Minimum Antiterrorism Standards.
- b. Responses to emergency releases of hazardous substance, pollutants, and contaminants that may involve removal of contaminated soils or treatment of buildings and structures.
- c. Rescue and recovery of human life in instances of natural or man-made disasters.
- d. Removal of contaminated soil by mechanical means.
- e. Land application of biosolids to land being remediated.

- f. Minimally destructive testing of buildings and structures for hazard-containing materials, wherein any testing on historic fabric is performed in areas not readily visible.
- g. Environmental restoration surveys within restoration operational units (OUs) as indicated on the map in Exhibit I or as designated by the USAG Alaska's Restoration and Compliance personnel. *(for Restoration activities; non-Restoration see 1.m.)*
- h. Destruction of ordnance or unexploded ordnance in existing open burning/open detonation units or in place.
- i. Installation or removal/decommissioning of environmental monitoring units for the mitigation of hazardous materials.
- j. Replacement or removal of tanks which contain or have been used for hazardous substances.
- k. Activities necessary for the maintenance of the landfill.
- l. Disposal of items landfilled on the installation.
