

**PROGRAMMATIC AGREEMENT AMONG
THE UNITED STATES ARMY GARRISON WEST POINT,
THE NEW YORK STATE HISTORIC PRESERVATION OFFICER,
AND
THE ADVISORY COUNCIL ON HISTORIC PRESERVATION
REGARDING OPERATIONS, MAINTENANCE, AND DEVELOPMENT ACTIVITIES
UNITED STATES ARMY GARRISON WEST POINT
WEST POINT, NEW YORK**

WHEREAS, the United States Army Garrison West Point (West Point) proposes to continue to coordinate and administer an ongoing program of operation, maintenance, and development (Project); and

WHEREAS, West Point, a federally owned and operated facility, plans to carry out the Project pursuant to Army Regulation, thereby making the Project an undertaking subject to review under Section 106 of the National Historic Preservation Act (NHPA), 16 U.S.C. § 470f, and its implementing regulations, 36 C.F.R. Part 800; and

WHEREAS, West Point has defined the area of potential effect (APE) to include the entire area of West Point legally defined by the “West Point Federal Jurisdiction” document available from the West Point Real Property Office (described in Attachment A); and

WHEREAS, West Point has determined that the aforementioned program may have an adverse effect on properties eligible for or listed on the National Register of Historic Places (NRHP) or within the United States Military Academy National Historic Landmark District (NHLDD) (Attachment C) and has consulted with the New York State Historic Preservation Officer (SHPO) pursuant to 36 C.F.R. Part 800; and

WHEREAS, West Point has consulted with the Delaware Nation, Oklahoma; the Delaware Tribe of Indians; and the Stockbridge-Munsee Community, Wisconsin, all federally recognized Indian tribes (Tribes) with potential concerns for properties of traditional religious and cultural importance at West Point, and has invited these Tribes to sign this Programmatic Agreement (PA) as concurring parties; and

WHEREAS, the consultation procedures between the United States Army Garrison West Point and the Stockbridge-Munsee Community, are governed by the 2014 *Memorandum of Agreement (MOA) Between the United States Army Garrison West Point (USAG WP) and the Stockbridge-Munsee Community Regarding Consultation Procedures* and is therefore not part of, or superseded by this PA; and

WHEREAS, in accordance with 36 C.F.R. § 800.10(c), West Point has notified the Secretary of the Interior (SOI) through the Northeast Regional Office of the National Park Service (NPS) of this consultation as it involves a National Historic Landmark. The NPS has chosen to participate in the consultation and has been invited to sign this PA as a concurring party; and

1 **WHEREAS**, West Point has consulted with Orange County, New York; Putnam County, New
2 York, Scenic Hudson; Hudson Highlands Land Trust; National Trust for Historic Preservation;
3 and the Hudson River Keeper, and has invited them to comment and participate in the
4 consultations to develop this PA and to sign as concurring parties; and
5

6 **WHEREAS**, West Point has provided the public an opportunity to comment on this PA through
7 posting the document to the West Point Garrison Cultural Resources web page as well as
8 providing the document to local historic preservation groups and has incorporated the
9 recommendations of the public and reviewing agencies into this PA; and
10

11 **WHEREAS**, in accordance with 36 C.F.R. § 800.6(a)(1), West Point has notified the Advisory
12 Council on Historic Preservation (ACHP) of its adverse effects determination with specified
13 documentation, and the ACHP has chosen to participate in the consultation pursuant to 36 C.F.R.
14 § 800.6(a)(1)(iii); and
15

16 **WHEREAS**, pursuant to Army Regulation 200-1, *Environmental Protection and Enhancement*,
17 the Department of the Army has designated the Garrison Commander (Commander) to serve as
18 the agency official responsible for compliance with the requirements of Section 106 of the
19 NHPA; and
20

21 **WHEREAS**, the management of current and future family housing and ancillary facilities at
22 West Point, many of which are contributing resources to the NHL, is governed by the 2008
23 *Programmatic Agreement Among the United States Army Garrison, West Point, New York, the*
24 *New York State Historic Preservation Officer, and Advisory Council on Historic Preservation*
25 *Regarding the Residential Community Initiative Implementation at the United States Army*
26 *Garrison, West Point, Orange County, New York* and is therefore not part of this PA; and
27

28 **WHEREAS**, the management of current and future privatized lodging and ancillary facilities at
29 West Point, some of which are contributing resources to the NHL, is governed by the 2013
30 *Programmatic Agreement Between The United States Army Garrison, West Point, New York, the*
31 *New York State Historic Preservation Officer, the Advisory Council on Historic Preservation*
32 *and Rest Easy LLC, Regarding the Privatization of Army Lodging at the United States Army*
33 *Garrison, West Point, Orange County, New York* and is therefore not part of this PA; and
34

35 **WHEREAS**, districts, sites, buildings, structures, and objects that are 50 years of age or older
36 that have not yet been evaluated for eligibility to the NRHP will be considered eligible to the
37 NRHP for this PA; and
38

39 **WHEREAS**, areas identified as containing unexploded ordinance (UXO) and have been listed as
40 impact and/or dud zones (described in Attachment B) will not be surveyed for archaeological
41 sites because of human health and safety issues; and
42

1 **NOW, THEREFORE,** West Point, the SHPO, and the ACHP agree that the undertaking shall
2 be implemented in accordance with the following stipulations in order to take into account
3 potential effects of the undertaking on historic properties.
4

STIPULATIONS

West Point shall ensure that the following stipulations are carried out:

I. STAFFING

A. The Commander shall designate the position of Chief Master Planner as the “Cultural Resources Manager” (CRM) to coordinate the installation's cultural resources management program. The West Point CRM must possess the appropriate knowledge, skills, and professional training and education to carry out program responsibilities and may delegate responsibility in meeting this PA to a member of the West Point Cultural Resources Program staff and/or to contract support.

B. The West Point Cultural Resources Program staff, within the Master Planning Division, shall include at least one professional who meets the SOI *Professional Qualifications Standards* (48 FR 44716) for Architectural History, Historic Architecture or Historic Preservation, whose primary responsibility is managing the architectural resources within the NHL, and one professional who meets the SOI *Professional Qualifications Standards* for Archaeology, whose primary responsibility is managing the archaeological resources of the West Point range areas.

C. West Point shall ensure that all individuals contracted to perform cultural resource management duties are qualified under the SOI *Professional Qualifications Standards* for the tasks appointed to them.

D. In the Annual Report (Stipulation V), West Point shall provide to the SHPO information regarding the names and qualifications of those persons providing the qualified professional services in support of the cultural resources management programs at West Point as well as new personnel employed in the position of CRM or West Point Cultural Resources Program staff.

II. PROJECT REVIEW

A. Determine the Undertaking

1. The West Point Cultural Resources Program staff shall determine if the proposed project is an undertaking as defined in 36 C.F.R. § 800.16(y).

a) If the West Point Cultural Resources Program staff determines the proposed project is an undertaking that has no potential to cause effects on historic properties as defined in 36 C.F.R. § 800.16(i), the CRM shall document this determination for inclusion in the Annual Report, and West Point has no further obligations under this stipulation.

b) If the West Point Cultural Resources Program staff determines the proposed project is an undertaking with the potential to cause effects on historic properties, the West Point Cultural Resources Program staff will continue on in the Project Review process.

2. The West Point Cultural Resources Program staff shall determine if the undertaking is an activity that is listed in Appendix C.

a) If the West Point Cultural Resources Program staff determines the undertaking is an activity that is listed in Appendix C, the West Point Cultural Resources Program staff shall document this determination for inclusion in the Annual Report, and West Point has no further obligations under this stipulation.

b) If the West Point Cultural Resources Program staff determines the undertaking is not an activity that is listed in Appendix C, the West Point Cultural Resources Program staff shall continue on in the Project Review process.

B. Define the Area of Potential Effects and Identify Historic Properties

1. The West Point Cultural Resources Program staff shall determine and document the undertaking's APE taking into account direct, indirect, and cumulative effects.

2. The West Point Cultural Resources Program staff shall determine if cultural resources surveys are required for the APE.

a) If identification efforts are not adequate in part or all of the APE for an undertaking, West Point will ensure that adequate identification is completed by professionals meeting the qualifications described by the Secretary of the Interior (48 FR 44738-44739) as appropriate to the kinds of historic properties likely to be within the APE.

b) If there are properties requiring evaluation present in the APE, the West Point Cultural Resources Program staff will evaluate the property for eligibility to the NRHP and will forward documentation supporting the evaluations to SHPO for review and concurrence.

(1) The SHPO shall be afforded 30 calendar days to respond to the West Point's determinations of eligibility.

1 (2) If West Point and the SHPO agree that the properties in the
2 APE are not eligible for inclusion on the NRHP, the West Point
3 Cultural Resources Program staff may proceed to Stipulation
4 II(B)(3).
5

6 (3) If West Point and the SHPO agree that properties in the
7 APE are eligible for inclusion on the NRHP, the West Point
8 Cultural Resources Program staff may proceed to Stipulation
9 II(B)(4).
10

11 (4) If the West Point Cultural Resources Program staff and the
12 SHPO do not agree on determinations of eligibility, West Point
13 Cultural Resources Program staff will either resolve the
14 disagreement through further consultation with SHPO or will
15 consult the Keeper of the National Register pursuant to 36 C.F.R.
16 Part 63.
17

18 3. If the West Point Cultural Resources Program staff does not identify
19 historic properties within the APE, the West Point Cultural Resources Program
20 staff shall document this determination of “No Historic Properties Affected” for
21 inclusion in the Annual Report; and West Point has no further obligations under
22 this stipulation.
23

24 4. If the West Point Cultural Resources Program staff identifies a historic
25 property that may be directly, indirectly, or cumulatively affected within within
26 the APE, the West Point Cultural Resources Program staff shall continue on in the
27 Project Review process.
28

29 C. Evaluate Effects of the Undertaking
30

31 1. The West Point Cultural Resources Program staff shall assess the effects
32 of the proposed undertaking, to include direct, indirect, and cumulative effects, on
33 historic properties using the criteria of adverse effects (36 C.F.R. § 800.5(a)(1))
34 and will make one of the following determinations:
35

36 a) “No Effect to Historic Properties”: if it is determined that historic
37 properties present in the APE will not be affected by the undertaking, the
38 West Point Cultural Resources Program staff shall document this
39 determination for those undertakings for inclusions in the Annual Report.
40 West Point has no further obligations under this stipulation.
41

1 b) “No Adverse Effect to Historic Properties”: if it is determined that
2 historic properties present in the APE will not be adversely affected by the
3 undertaking, the West Point Cultural Resources Program staff shall
4 document this determination for those undertakings for inclusions in the
5 Annual Report. West Point has no further obligations under this
6 stipulation.
7

8 c) “Adverse Effect to Historic Properties”: if it is determined that
9 historic properties present in the APE will be adversely affected by the
10 undertaking, the West Point Cultural Resources Program staff shall
11 continue on in the Project Review process.
12

13 D. Resolution of Adverse Effects 14

15 1. If the West Point Cultural Resources Program staff determines that the
16 undertaking will have adverse effects on identified historic properties, the West
17 Point Cultural Resources Program staff will notify the SHPO using the following
18 process:
19

20 a) The West Point Cultural Resources Program staff shall prepare a
21 notification package for the SHPO that includes a description of the
22 undertaking, an illustration of the APE, a list of identified historic
23 properties within the APE, and the justification for the finding of adverse
24 effects.
25

26 b) The West Point Cultural Resources Program staff shall send the
27 notification package via the SHPO’s Cultural Resource Information
28 System (CRIS). Upon receipt of the notification package, the SHPO has
29 30 calendar days to provide a written response to the West Point CRM. If
30 the SHPO does not respond within 30 days, then West Point will presume
31 SHPO's Concurrence.
32

33 c) If the SHPO does not concur with the finding of adverse effects,
34 the West Point Cultural Resources Program staff shall consult with the
35 SHPO for no more than 15 calendar days, or other time period as agreed to
36 between SHPO and the West Point Cultural Resources Program staff,
37 upon receipt of SHPO notification of non-concurrence to attempt to
38 resolve concerns as identified by the West Point Cultural Resources
39 Program staff.
40

1 (1) If at the end of the 15 calendar days, or agreed to specified
2 time, the West Point Cultural Resources Program staff changes the
3 finding to no adverse effects, the West Point Cultural Resources
4 Program staff shall document this SHPO concurrence for inclusion
5 in the Annual Report. West Point has no further obligations under
6 this stipulation.
7

8 (2) If at the end of the 15 calendar days, or agreed to specified
9 time, the West Point Cultural Resources Program staff maintains
10 the finding of adverse effects, the West Point Cultural Resources
11 Program staff shall continue on in the Project Review process.
12

13 d) If the SHPO concurs with the finding of adverse effects, the West
14 Point Cultural Resources Program staff will proceed in the Project Review
15 process.
16

17 2. The West Point CRM shall notify Tribes, other Consulting Parties, and the
18 public, within 10 calendar days of receiving the SHPO's concurrence of an
19 adverse effect finding for an undertaking using the following process:
20

21 a) The West Point Cultural Resources Program staff will prepare a
22 notification package including a description of the undertaking, an
23 illustration of the APE, a list of identified historic properties within the
24 APE, the explanation for the finding of adverse effects, steps taken or
25 considered by West Point to avoid or minimize the adverse effects, any
26 SHPO comments received by West Point regarding the undertaking, an
27 invitation to participate in a consultation to resolve adverse effects, and the
28 proposed date for a Consulting Parties meeting.
29

30 b) The West Point Cultural Resources Program staff will send the
31 notification package in hard copy to the Tribes and other Consulting
32 Parties.
33

34 (1) The Tribes are under no obligation to provide comments on
35 the effect determination; however, if they wish West Point to
36 consider their comments regarding the effect determination, Tribes
37 should submit comments in writing within 30 calendar days of
38 receipt. If no comments are received within that time, the West
39 Point CRM shall make a second attempt to contact the Tribes for
40 comments. West Point shall take any tribal comments received into
41 consideration before concluding the consultation and will notify
42 the SHPO of any tribal concerns and the West Point response to
43 those concerns.
44

1 (2) Consulting Parties are under no obligation to provide
2 comments on the effect determination; however, if they wish West
3 Point to consider their comments regarding the effect
4 determination, Consulting Parties should submit comments in
5 writing within 30 calendar days of receipt. If no comments are
6 received within that time, the West Point CRM shall make a
7 second attempt to contact the Consulting Parties for comments and
8 if they wish to participate in the resolution of adverse effects. West
9 Point shall take any comments received into consideration before
10 concluding the consultation and will notify the SHPO of any
11 concerns and the West Point response to those concerns.
12

13 c) The West Point Cultural Resources Program staff shall post a
14 notice of the adverse effects finding on the official West Point website to
15 include a description of the undertaking, a list of identified historic
16 properties, the explanation for the finding of adverse effects, steps taken or
17 considered by West Point to avoid or minimize the adverse effects, any
18 SHPO comments received by West Point regarding the undertaking, and
19 an invitation to provide written comment within 30 calendar days of
20 posting to the West Point CRM.
21

22 3. The West Point Cultural Resources Program staff shall organize a
23 consultation meeting, to include the SHPO, 45 calendar days after notifying the
24 Tribes and Consulting Parties, to discuss alternatives to avoid, minimize, or
25 mitigate the adverse effects. Additional meetings shall be scheduled as needed.
26

27 4. If through consultation with the SHPO, Tribes, and other Consulting
28 Parties the undertaking avoids the adverse effects, the West Point Cultural
29 Resources Program staff will document the alternatives utilized to reduce the
30 effects of the undertaking to a no adverse effects finding and include them in the
31 Annual Report. West Point has no further obligations under this stipulation.
32

33 5. If through consultation with the SHPO, Tribes, and other Consulting
34 Parties the adverse effects are mitigated, the measures agreed to can be specified
35 in a letter agreement referencing the administrative stipulations in this PA and
36 signed by the Director of Public Works as the Commander's designee, SHPO, and
37 any other party that may have a responsibility outlined in the letter agreement (see
38 Appendix D for a sample letter agreement). The letter agreement will be included
39 in the Annual Report.
40

6. If through consultation with the SHPO, Tribes, and other Consulting Parties the adverse effects are minimized or mitigated, West Point shall determine which treatment measures in Appendix E are appropriate, and specify those treatment measures in a Memorandum of Agreement in accordance with 36 C.F.R. § 800.6(c) and filed with the ACHP upon execution.

7. The ACHP will only participate in the resolution of adverse effects for individual undertakings if a written request is received from West Point or the SHPO.

III. PLANNING

A. The Commander shall ensure that installation planning documents are analyzed by the West Point Cultural Resources Program staff to identify undertakings during revisions, changes, or when a new planning document is developed. The documents to be analyzed shall include, but are not limited to, the:

1. Master Plan;
2. Military construction plans;
3. Integrated Natural Resource Management Plans;
4. Integrated Cultural Resources Management Plans;
5. Work Board meetings;
6. Historic property renovation and demolition plans;
7. Installation Design Guide;
8. Historic Landscape Management Plan;
9. Integrated Wildland Fire Management Plan; and
10. Dig Safe Permit requests.

B. West Point Cultural Resources Program staff shall ensure that schedules and priorities are established and documented for identification, evaluation, and treatment of historic properties that might be affected by the undertakings identified pursuant to Stipulation II.

1. The Commander shall ensure that all relevant offices at West Point are informed of the schedules and priorities, the potential of these undertakings to affect historic properties, the requirement to ensure that an analysis of alternatives is fully considered as early as possible in project planning, and of the requirement for review of the undertaking pursuant to this PA.

2. This will be done at the annual Directorate of Public Work's mandatory "Building Commandant" training sessions.

C. The Commander shall ensure that the West Point Cultural Resources Program staff will conduct cultural resources sensitivity and requirements training regarding Stipulation II of this PA no less than once a year with Building Commandants, Environmental Staff, Environmental Officers, and others deemed as appropriate. All training provided by the West Point Cultural Resources Program staff will be included in the Annual Report.

IV. Post-Review Discovery

A. If potential historic properties are discovered or unanticipated effects on historic properties are found, West Point shall address these post-review discoveries in accordance with 36 C.F.R. § 800.13(b).

B. All cases of inadvertent discoveries will be documented in the Annual Report.

C. Upon discovery of human remains or suspected human remains, the procedures in Appendix F shall be followed.

V. Reporting and Annual Review

A. West Point shall prepare and submit the first Annual Report 180 days after this PA is executed, the second Annual Report 360 days after this PA is executed, and then on 01 October, starting in 2016 of each year thereafter for as long as this Agreement remains in force, that reviews the implementation of the terms of this Agreement and to determine whether amendments are needed to consulting parties.

B. Annual reports shall include:

1. A list of exempted projects in which no further consultation was required;
2. West Point's identification of amendments needed for the PA;
3. Updated maps to the PA to include newly surveyed areas and identified historic properties;

4. Letter agreements;
5. Names and qualifications of those persons supporting the cultural resources management programs and new personnel employed in the position of CRM or West Point Cultural Resources Program staff;
6. Post-review discoveries; and
7. Updated inventory of historic properties and historic status codes.

C. West Point shall organize a meeting to discuss the annual report with the SHPO, NPS, Tribes, and any other identified party as necessary, within 75 calendar days of those parties receiving the report.

D. West Point shall ensure that the report is available for public inspection, that interested members of the public are made aware of its availability, and that interested members of the public are invited to provide comments to West Point, the SHPO, and the ACHP (with the exception of any maps and information with locational and site type information regarding archaeological sites).

VI. Dispute Resolution

Should a signatory or concurring party to this PA object to any of the actions proposed or the manner in which the terms of this PA are implemented, West Point shall consult with such party to resolve the objection. If West Point determines that such objection cannot be resolved, West Point shall:

A. Forward all documentation relevant to the dispute, including West Point's proposed resolution, to the ACHP. The ACHP shall provide West Point with its advice on the resolution of the objection within 30 calendar days of receiving adequate documentation. Prior to reaching a final decision on the dispute, West Point shall prepare a written response that takes into account any timely advice or comments regarding the dispute from the ACHP, signatories and concurring parties, and provide them with a copy of this written response. West Point shall then proceed according to its final decision.

B. If the ACHP does not provide written comments regarding the dispute within the 30 calendar day time period, West Point may make a final decision on the dispute and proceed accordingly. Prior to reaching such a final decision, West Point shall prepare a written response that takes into account any timely comments regarding the dispute from the signatories and concurring parties to the PA, and provide them and the ACHP with a copy of such written response.

C. West Point's responsibilities to carry out all other actions subject to the terms of this PA that are not the subject of the dispute remain unchanged.

VII. Amendments

This PA may be amended when such an amendment is agreed to in writing by all signatories. The amendment will be effective on the date a copy signed by all of the signatories is filed with the ACHP.

VIII. Termination

A. If any signatory to this PA determines that its terms will not or cannot be carried out, the party shall immediately consult with the other parties to attempt to develop an amendment per Stipulation VII. If within 30 calendar days (or another time period agreed to by all signatories) an amendment cannot be reached, any signatory may terminate the PA upon written notification to the other signatories.

B. Should consultation fail and the PA be terminated, West Point shall:

1. Consult in accordance with 36 C.F.R. § 800.14(b)(3) to develop a new PA;
or
2. Comply with 36 C.F.R. §§ 800.3 through 800.7 with regard to each undertaking.

IX. Anti-Deficiency Act Compliance

The stipulations of this PA are subject to the provisions of the Anti-Deficiency Act, 31 USC §1341. If compliance with the Anti-Deficiency Act alters or impairs West Point's ability to implement the stipulations of this PA, West Point will consult in accordance with the amendment and termination procedures found at Stipulations VII and VIII of this PA.

X. Expiration and Renewal of the Programmatic Agreement

This PA will remain in full force and effect for 10 years after the date of the last signatory's signature. This PA will be reviewed periodically, not less than five years from the execution of the PA. Sixty calendar days prior to the date this PA would otherwise expire, West Point shall consult with the Signatories to determine whether the PA needs to be extended, amended, or terminated and take such actions as appropriate.

XI. Additional Federal Involvement

In the event that there is additional federal involvement in the Project, that federal agency will have the option to accept the terms of this PA, without acquiring an amendment, if the federal

1 agency signs as an invited signatory. West Point must notify the signatories in advance of the
2 federal agency committing to the terms of this PA.
3

4 **Execution** of this PA by West Point, the SHPO, and the ACHP and implementation of its terms
5 evidences that West Point has taken into account the effects of the program on historic properties
6 and afforded the ACHP a reasonable opportunity to comment.

APPENDIX A:

Definitions

Adverse Effect: Any effect that directly or indirectly alters those characteristic of any historic property that diminishes its integrity of location, design, setting, materials, workmanship, feeling or association.

Advisory Council on Historic Preservation (ACHP): An independent Federal agency that promotes the preservation, enhancement, and productive use of our Nation's historic resources, and advises the President and Congress on national historic preservation policy.

Area of Potential Effects (APE): Area in which an undertaking may directly or indirectly alter the characteristics or use of a historic property.

Cultural Resources Manager (CRM): Individual appointed by the West Point Garrison Commander that provides day-to-day management for all cultural resources under the control of the U.S. Army Garrison at West Point. The CRM ensures that all installation activities are in compliance with applicable cultural resources requirements. Serves as a liaison between all parties involved in the PA and implements the provisions of the PA.

Dig Safe: A permit request which requires identification of any and all underground resources within the proposed project area.

Effect: Any alterations to the characteristics of a historic property qualifying it for inclusion in or eligibility for the National Register. When evaluating effects, agencies shall consider cumulative effects of their undertakings.

Garrison Commander (Commander): For the purposes of this agreement, the Garrison Commander of the U.S. Army Garrison at West Point.

Historic Property: Any building, structure, object, site or district that is listed in or eligible for listing in the National Register of Historic Places. This includes properties that are contributing elements to the United States Military Academy (USMA) National Historic Landmark District.

New York State Historic Preservation Office (SHPO): The state office responsible for reviewing all projects in accordance with Section 106 of the NHPA that occur in the State of New York.

Undertaking: A project, activity or program funded in whole or in part under the direct or indirect jurisdiction of a Federal agency, including those carried out by or on behalf of a Federal agency; those carried out with Federal financial assistance; and those requiring a Federal permit, license or approval.

1 **U.S. Army Garrison:** For the purposes of this PA, the U.S. Army Garrison at West Point.
2

APPENDIX B:

Annual Report Template

All work undertaken on historic buildings, monuments, or landscapes, or any other cultural resources shall be monitored and documented by the CRM in the annual report to the New York SHPO. The report shall follow the template below and include a description of the work, location of the work, and how the work complies with the terms of this PA. If work includes removal of historic fabric, the condition of the fabric removed shall be documented. When appropriate the report shall include photographs, construction drawings or any other documentation that supports the undertaking's exclusion from New York SHPO review. Failure to provide this documentation shall negate the terms of this PA which will subject the U.S. Army Garrison to standard Section 106 review procedures for all undertakings.

Template for Annual Report to New York SHPO, Exempted Projects

Project Name	Location	Archaeological Sensitivity (High/Low)	Exemption Used	Date Reviewed	Photographs/ Drawings	Remarks

APPENDIX C:

Programmatic Allowances

West Point, the SHPO, and the ACHP agree that the following projects are undertakings but have limited potential to adversely affect historic properties and therefore do not require further review under this PA. When referenced in an Allowance, "in kind" shall mean that the result will match all physical and visual aspects of existing historic materials, including form, color, and workmanship. "In kind" mortar will also match the strength and joint tooling of existing historic mortar.

I. Ground Disturbing Activities and Site Work

- A. Ground disturbing activities related to the repair, replacement, or hardening of any footings, foundations, retaining walls, other slope stabilization systems (i.e., gabion baskets, etc.), and utilities (including sewer, water, storm drains, electrical, gas, communication, leach lines, and septic tanks), provided the excavation will not disturb more soil than previously disturbed. The Allowance also applies to historic review of such features that are listed in or eligible for the NRHP, if the work is in kind.
- B. Substantial in kind repair, replacement, or upgrade of culvert systems within rivers, streams, or drainage ways, including any modest increase in capacity, provided the excavation will not disturb more soil than previously disturbed. This Allowance also applies to related features (such as headwalls and wing walls) that are in or eligible for the NRHP, if the work is in kind.
- C. Repair, replacement, or hardening of utilities under existing improved roads/roadways, or within other previously disturbed rights of way.
- D. In kind repair or replacement of driveways, parking lots, and walkways. To include repaving/resurfacing of existing paved areas, e.g., parking areas, sidewalks, tennis courts, outdoor basketball courts where the proposed work does not exceed the depth and breadth of previous undisturbed soil. To include repaving/resurfacing of roads, streets, alleys, ramps, and driveways where no change in width, curb location, surface material, depth of roadbed, vertical alignment (that is, height or crown of the road surface), or drainage is to occur.
- E. Substantially in kind repair or replacement of utilitarian structures (i.e. pump houses, etc.), including exposed pipelines. Modern materials may be used, provided their finish is compatible with the context of the site.
- F. In kind repair or replacement of fencing and other freestanding exterior walls not part of the Hudson River-Erie Canal System.

- 1 G. Installation of temporary structures (in operation for no more than 24 months) for uses
2 such as classrooms or offices.
3
- 4 H. Installation of scaffolding, temporary barriers (i.e., chain link fences, etc.), polyethylene
5 sheeting, or tarps, in operation for no more than 24 months, provided such work does not
6 result in additional damage, significant loss of historic fabric, or irreversible alterations.
7
- 8 I. In kind repair or replacement of hardscaping and utilities, such as paving, planters,
9 trellises, irrigation, and lighting. Maintenance and repair of existing landscape features,
10 including plantings, trees, and shrubs provided that any new vegetation is a replacement
11 in kind of existing historic planting in regard to location and species and the work does
12 not threaten to damage historic properties. Repair/replacement of existing curbing or
13 sidewalks in kind in the same location with no removal of trees or damage to tree root
14 systems. Maintenance and repair of existing landscape features, fences, retaining walls
15 and walkways, provided that such maintenance is limited to repairs using matching
16 materials and retains as much original material as possible.
17
- 18 J. Sediment removal from man-made drainage facilities, including retention and detention
19 basins, ponds, ditches, and canals.
20
- 21 K. Dewatering of flooded areas.
22
- 23 L. Installation of exterior freestanding signage and kiosks.
24
- 25 M. Repair and replacement of play equipment and safety surfacing.
26

27 **II. Buildings**

28

29 **A. Utilities and Mechanical**

30

- 31 1. Interior mechanical (HVAC), electrical, or plumbing work, limited to upgrading,
32 elevation, or in kind replacement.
33
- 34 2. Replacement or installation of interior and exterior fire detection, fire suppression,
35 and security alarm systems.
36
- 37 3. Installation of site mechanical, electrical, and plumbing equipment (e.g., an
38 emergency generator or air cooled condenser) on the conditions that no trim or
39 architectural features are altered and that it is behind the building or not visible
40 from the street and that no ground disturbing work is proposed that will exceed
41 the depth of previously disturbed soil.
42
- 43 4. Repair and replacement of site installed mechanical, electrical, and plumbing
44 equipment (e.g., an emergency generator or air cooled condenser) on the

condition that no trim or architectural features are altered and that no ground disturbing work is proposed that will exceed the depth and width of previous undisturbed soil.

B. Windows and Doors

1. In kind visual repair or replacement of damaged or deteriorated windows and doors.
2. Replacement of window panes in kind or with clear double or triple glazing, provided the result does not alter the existing window material and form. Also, historic windows or glazing may be treated with clear window films.

C. Interior

1. Repair and replacement-in-kind of ceilings.
2. Installation or replacement of video surveillance cameras, fire alarm systems, and security systems on the condition that no trim or architectural features are altered.
3. Installation or replacement of data (computer network, power) systems on the condition that no trim or architectural features are altered. Note that surface raceways may be included in this installation.
4. Installation or replacement of switchboards, motor control centers, panel boards, conductors and conduit, transformers, generators, and power receptacles with the condition that no trim or architectural features are altered or obscured.
5. Installation or replacement of sprinkler and standpipe systems on the condition that no trim or architectural features are altered. Note that exterior fire department connections must be visible and accessible to fire department personnel.
6. Repair and refinishing of wood floors.
7. Replacement of toilet room fixtures; partitions; floor; wall or ceiling surfaces.
8. Replacement of plumbing fixtures.
9. Installation or replacement of lighting fixtures and their controls such as switching and/or occupancy sensors, on the condition that no trim, architectural features, character defining fixtures, switch plates, etc. are altered.
10. Installation or replacement of kitchen equipment on the condition that no trim or architectural features are altered.
11. Elevator retrofits where only modern elements are replaced.
12. Interior repainting of previously (modern) painted surfaces.
13. Repair, replacement, or installation of electrical, plumbing; and life-safety systems, where no structural or decorative feature alteration is involved and where new outlets or vents are finished to match the surrounding wall. Where possible, new electrical outlets shall be installed in conjunction with new wiring inside walls, rather than running wire mould on the surface of the wall.
14. Changes to kitchens, bathrooms, or basement spaces in historic properties, as long as such changes are not visible from and do not detract from the significant exterior or interior historic character-defining elements in areas other than the

- 1 kitchen, bathroom, or basement. This includes installation of new kitchen cabinets
2 and countertops and installation of new bathroom fixtures as long as no window
3 openings or doors are altered.
- 4 15. Installation of insulation in floors, attics, and openings and installation inside
5 walls from the interior with an appropriate vapor barrier. For exterior walls and
6 ceilings, this is typically on the "warm" side (interior wall). For flooring where
7 crawl spaces are the underlying areas, this should be on the "cold side" (below the
8 insulation, above open ground). In locations where blown-in insulation is the
9 optimal or only possible method of installation, an equivalent vapor barrier shall
10 be created by assuring that the interior wall surfaces are covered with an
11 impermeable paint layer. Two layers of oil base paint or one layer of impermeable
12 latex paint constitute an acceptable vapor barrier. The paint layer must cover all
13 interior surfaces adjacent to the newly installed wall insulation. Special attention
14 shall be given to rooms that are major sources of interior moisture--laundry
15 rooms, bathrooms and kitchens. Changes to the finish of historically unpainted
16 trim and wood elements are not exempt.
- 17 16. Repair of flat, non-decorated interior walls and ceilings by patching plaster where
18 possible. When plaster repairs are not feasible, repairing with a smooth finish
19 drywall is allowed provided that the historic trim/wall relationship is maintained
20 and the new surface lies in the same plane as the original.
- 21 17. Replacement of trim work if, and only if, sections are missing or deteriorated
22 beyond repair and will be replaced in kind. Where new wall and ceiling surfaces
23 are installed or where wholesale replacement is needed, new trim should match
24 the historic in general scale and profile. New trim may be built up of stock
25 materials if appropriate.
- 26 18. Installation of standard light fixtures to replace missing or broken interior and
27 exterior lighting, fixtures. Where "public" spaces within buildings (entryways,
28 lobbies, dining rooms, function rooms) may have had or can accept more
29 elaborate or "period" fixtures, such fixtures will be appropriate in scale, material
30 and overall appearance, and where possible, be based on historic documentation.
- 31 19. Lead-based paint and asbestos abatement activities, such as cleaning and
32 vacuuming, that does not involve removal or alteration of structural, architectural,
33 or decorative features.
- 34 20. Control of insects, rodents, or other pests when the method does not physically or
35 visibly impact the historic fabric of the building.

36 D. Exterior Walls, Cornices, Porches, and Foundations

- 37
- 38
- 39 1. Repainting of surfaces.
- 40 2. In kind repair or partial replacement of porches, cornices, exterior siding, doors,
41 balustrades, stairs, or trim.
- 42 3. In kind repair or replacement of signs or awnings.
- 43 4. Temporary stabilization bracing or shoring, provided such work does not result in
44 additional damage, significant loss of historic fabric, or irreversible alterations,

5. Anchoring of walls to floor systems, provided disturbed historic fabric is restored in kind.
6. In kind repair or reconstruction of concrete/masonry walls, parapets, chimneys, or cornices, including mortar that matches the color, strength, and joint tooling of historic mortar, where occurring.
7. Bracing and reinforcing of chimneys and fireplaces, provided the bracing and reinforcing are either concealed from exterior view or removable in the future.
8. Strengthening of foundations and the addition of foundation bolts, provided that visible new work is in kind, including mortar that matches the color, strength, and joint tooling of historic mortar, where occurring.
9. Masonry cleaning will be appropriate on the condition that it follows the Secretary of the Interior's Standards for Rehabilitation and the National Park Service Technical Guidelines.
10. Masonry repair and repointing on up to 50% of a building on the condition that it follows the Secretary of the Interior's Standards for Rehabilitation and the National Park Service Technical Guidelines.
11. Repair of masonry foundations, walls, or chimneys by repointing using matching mortar composition, color, joint width and profile, only when mortar is missing or deteriorated.

E. Roofing

1. In kind repair, replacement, or strengthening of roofing, gutters, or downspouts.
2. Cement asbestos shingles may be replaced with asphalt-based shingles, and untreated wood shingles may be replaced with fire resistant wood shingles. Roofing material may be replaced with updated, energy-efficient materials, provided there is no significant loss of historic fabric. Roofing color will be closely matched through purchase of readily available materials, but without jeopardizing the integrity of the roofing material, and with a consideration of cost.

III. Roads, Roadways, and Railroads

- A. Repair of roads to original geometric design standards and conditions using in kind materials, number and width of lanes, shoulders, medians, curvature, grades, clearances, and side slopes.
- B. Repair of road composition with in kind surface materials including the reshaping and compacting of road bed soil and the repair of asphaltic or Portland cement concrete pavements.
- C. Repair of traffic control devices such as traffic signs and signals, delineators, street lights, and pavement markings.
- D. In kind repair of road lighting systems.

- 1
- 2 E. In kind repair of road appurtenances such as curbs, berms, fences, and sidewalks.
- 3
- 4 F. In kind repair of roadway safety elements such as barriers, guardrails, and impact
- 5 attenuation devices.
- 6
- 7 G. Repairs to railroads provided that excavation or site work will not disturb more soil than
- 8 substantially disturbed by the original construction; and in-kind repair or replacement of
- 9 railroad safety components, railroad crossings, and bolt-connected railroad tracks and
- 10 wood ties.
- 11
- 12

APPENDIX E:

Treatment Measures

If Undertakings result or will result in adverse effects, West Point and the SHPO may develop a treatment measure plan that includes one or more of the following Treatment measures, depending on the nature of the historic properties affected and the severity of adverse effects. This Appendix may be amended in accordance with Stipulation VII. If treatment measures cannot be agreed upon, all concerned parties will refer to Stipulation VI for dispute resolution.

A. Recordation Package

- a. Digital Photography Package: prior to project implementation, West Point shall oversee the successful delivery of a Digital Photography Package prepared by staff or contractors that meet the Secretary's *Professional Qualifications Standards* as appropriate. The Digital Photography Package will meet the standards cited in the National Park Service's *National Register of Historic Places Photographic Policy March 2010 (NPS Photographic Policy)* or subsequent revisions.
 - i. The Digital Photography Package shall include a comprehensive collection of photographs of both interior and exterior views showing representative spaces and details of significant architectural features and typical building materials. Exterior photographs shall include full oblique and contextual images of each elevation. Exterior views shall be keyed to a site plan while interior views shall be keyed to a floor plan of the building/structure. The photographs shall be indexed according to the date photographed, site number, site name, site address, direction, frame number, subject matter and photographer's name recorded on the reverse side in pencil.
 - ii. The Digital Photography Package shall include printed color copies of the digital photographs (on appropriate paper, per *NPS Photographic Policy*), a CD/DVD of the digital photographs, a completed state architectural inventory form, and a written site history of the historic property.
 - iii. West Point shall submit the Digital Photography Package to the SHPO for review and comment. Once approved by the SHPO, West Point shall file full copies of the approved Digital Photography Package to the West Point Cultural Resources Repository for permanent retention.
- b. 35mm Black and White Film Photography Package: prior to project implementation, West Point shall oversee the successful delivery of a 35mm

1 Black and White Film Photography Package prepared by staff or contractors that
2 meet the Secretary's Professional Qualifications as appropriate. The 35mm Black
3 and White Film Photography Package will meet the standards cited in the
4 National Park Service's *NPS Photographic Policy* or subsequent revisions.
5

6 i. The 35mm Black and White Photography Package shall include a
7 comprehensive collection of photographs of both interior and exterior
8 views showing representative spaces and details of significant
9 architectural features and typical building materials. Exterior photographs
10 shall include full oblique and contextual images of each elevation.
11 Exterior views shall be keyed to a site plan while interior views shall be
12 keyed to a floor plan of the building/structure. The photographs shall be
13 indexed according to the date photographed, site number, site name, site
14 address, direction, frame number, subject matter and photographer's name
15 recorded on the reverse side in pencil.
16

17 ii. The 35mm Black and White Film Photography Package shall include one
18 full set of 35mm black and white photographs printed on acid free paper,
19 the corresponding 35mm film negatives in acid free sleeves, a completed
20 state architectural inventory form, and a written site history of the historic
21 property.
22

23 iii. West Point shall submit the 35mm Black and White Film Photography
24 Package to the SHPO for review and comment. Once approved by the
25 SHPO, the West Point shall submit full copies of the approved 35mm
26 Black and White Film Photography Package to the West Point Cultural
27 Resources Repository for permanent retention.
28

29 c. Large Format Film Photography Package: prior to project implementation, West
30 Point shall oversee the successful delivery of a Large Format Film Photography
31 Package prepared by staff or contractors that meet the Secretary's Professional
32 Qualifications as appropriate. The Large Format Film Photography Package will
33 meet the standards cited in the National Park Service's *NPS Photographic Policy*
34 or subsequent revisions.
35

36 i. The Large Format Film Photography Package shall include a
37 comprehensive collection of photographs of both interior and exterior
38 views showing representative spaces and details of significant
39 architectural features and typical building materials. Exterior photographs
40 shall include full oblique and contextual images of each elevation.
41 Exterior views shall be keyed to a site plan while interior views shall be
42 keyed to a floor plan of the building/structure. The photographs shall be
43 indexed according to the date photographed, site number, site name, site
44 address, direction, frame number, subject matter and photographer's name

recorded on the reverse side in pencil.

- ii. The Large Format Film Photography Package shall include one full set of 4 x 5 or 5 x 7-inch photographs printed on acid free paper, the corresponding 4 x 5 or 5 x 7-inch negatives in acid free sleeves, a completed state architectural inventory form, and a written site history of the historic property.
- iii. West Point shall submit the Large Format Film Photography Package to the SHPO for review and comment. Once approved by the SHPO, West Point shall submit full copies of the approved Large Format Film Photography Package to the West Point Cultural Resources Repository for permanent retention.

B. Design Review by SHPO

- a. Prior to project implementation, West Point shall work with the SHPO to develop a historically compatible design. Plans and specifications will, to the greatest extent feasible, preserve the basic character of a building.
- b. Primary emphasis shall be given to the major street elevations that are visible. Significant contributing features (e.g. trim, windows, doors, porches) will be repaired or replaced with either in-kind materials or materials that come as close as possible to the original materials in basic appearance.
- c. Aesthetic camouflaging treatments such as use of veneers, paints, texture compounds and other surface treatments and/or use of sympathetic infill panels and landscaping features will be employed to the greatest extent feasible.
- d. Final construction drawings used in the bidding process will be submitted to SHPO for review and comment prior to the award of a construction contract and the initiation of construction activities.

C. Public Interpretation

- a. Prior to project implementation, West Point shall work with the SHPO to design an educational interpretive plan. The plan may include signs, displays, educational pamphlets, websites, workshops and other similar mechanisms to educate the public on historic properties within West Point.
- b. Once an interpretive plan has been agreed to by West Point and the SHPO, West Point shall continue to consult throughout implementation of the plan until all agreed upon actions have been completed by West Point.

1 **D. Historical Context Statements and Narratives**

- 2
- 3 a. Prior to project implementation, West Point shall work with the SHPO to
- 4 determine the topic and framework of a historic context statement or narrative for
- 5 West Point to complete. The statement or narrative may focus on an individual
- 6 property, a historic district, a set of related properties, or relevant themes as
- 7 identified in the West Point ICRMP.
- 8
- 9 b. Once the topic of the historic context statement or narrative has been agreed to,
- 10 West Point shall continue to coordinate with the SHPO through the drafting of the
- 11 document and delivery of a final product. The SHPO shall review and comment
- 12 on the end product.
- 13

14 **E. Oral Historic Documentation**

- 15
- 16 a. Prior to project implementation, West Point shall work with the SHPO to identify
- 17 oral history documentation needs and agree upon a topic and list of interview
- 18 candidates.
- 19
- 20 b. Once the parameters of the oral history project have been agreed upon, West Point
- 21 shall continue to coordinate with SHPO through the data collection, drafting of
- 22 the document, and delivery of the final product. The SHPO shall review and
- 23 comment on the end product.
- 24

25 **F. Historic Property Inventory**

- 26
- 27 a. Prior to project implementation, West Point shall work with the SHPO to
- 28 establish the appropriate level of effort to accomplish a historic property
- 29 inventory. Efforts may be directed toward the resurvey of previously designed
- 30 historic properties which have undergone change or lack sufficient
- 31 documentation, or the survey of new historic properties that lack formal
- 32 designation.
- 33
- 34 b. Once the boundaries of the survey area have been agreed upon, West Point shall
- 35 continue to coordinate with the SHPO through the data collection process. West
- 36 Point shall use SHPO standards for the survey of historic properties and SHPO
- 37 forms as appropriate.
- 38
- 39 c. West Point shall prepare a draft inventory report, according to SHPO templates
- 40 and guidelines, and work with the SHPO until a final property inventory is
- 41 reviewed and commented on by the SHPO.
- 42
- 43
- 44

G. National Register and National Historic Landmark Nominations

- a. Prior to project implementation, West Point shall work with the SHPO to identify the individual historic properties that would benefit from a completed NRHP or NHL nomination form.
- b. Once West Point and SHPO have agreed to a property, West Point shall continue to coordinate with the SHPO through the drafting of the nomination form. The SHPO shall provide adequate guidance to West Point during the preparation of the nomination form and shall formally submit the final nomination to the Keeper for inclusion in the NRHP.

H. Geo-References of Historic Maps and Aerial Photographs

- a. Prior to project implementation, West Point shall work with the SHPO to identify the historic maps and/or aerial photographs for scanning and geo-referencing.
- b. Once a list of maps and/or aerial photographs have been agreed upon, West Point shall continue to coordinate with the SHPO through the scanning and geo-referencing process and shall submit drafts of paper maps and electronic files for them to review. The SHPO shall review and comment on the quality of the documentation provided by the designated responsible party.
- c. The final deliverable shall include a paper copy of each scanned image, a geo-references copy of each scanned image, and the metadata relating to both the original creation of the paper maps and the digitization process.

APPENDIX F:

Procedures for the Discovery of Human Remains

- a. Upon discovery of human remains or suspected human remains, the archaeological team would immediately cease excavation activities, secure the excavation scene, and notify the West Point Cultural Resources Manager (P. Raley 845-938-7663).
- b. The West Point CRM would immediately notify the MP Front Desk (845-938-3333).
- c. If the archaeological team cannot contact the West Point CRM, they would notify the MP Front Desk directly.

- 1
- 2 d. The MP Front Desk should immediately take the following actions:
- 3
- 4 i. Dispatch a patrol unit to the location to secure the scene;
- 5 ii. Dispatch Criminal Investigation Division (CID) Agent(s) to the scene
- 6 iii. Notify the PMO Chain-Of-Command as appropriate.
- 7
- 8 e. The West Point CRM would subsequently notify the:
- 9
- 10 i. New York State Historic Preservation Officer;
- 11 ii. West Point Public Affairs Office.
- 12
- 13 f. West Point CID will make the legal determination that the human remains are
- 14 archaeological/historic in nature and are not a crime scene. West Point CID will
- 15 formally document this decision and provide record copy to West Point CRM.
- 16 If the West Point CID determines that the human remains are a crime scene,
- 17 they will assume all responsibility for future actions and activities at the crime
- 18 scene, as the Federal law enforcement agency in charge of the criminal
- 19 investigation.
- 20
- 21 g. Upon determination that the remains are historic/prehistoric in nature and not a
- 22 crime scene the West Point CRM would contact a Forensic Anthropologist to
- 23 ascertain if the remains are:
- 24
- 25 i. Native-American (pre-historic); or
- 26 ii. Historic.
- 27
- 28 h. The West Point PMO will be responsible for securing the human remains until
- 29 archaeological recovery is completed.
- 30
- 31 i. If the remains are determined to be Native American (pre-historic) the
- 32 provisions of the Native American Graves Protection and Repatriation Act
- 33 (NAGPRA) apply. The West Point CRM must notify interested Native
- 34 American nations:
- 35
- 36 i. Stockbridge-Munsee Band of Mohican Indians
- 37 ii. The Delaware Tribe of Indians
- 38 iii. The Delaware Nation
- 39
- 40
- 41 j. If the Forensic Anthropologist determines the remains to be an American
- 42 service-member of the World War II or later era, the U.S. Army Human
- 43 Identification Laboratory and the DoD MIA Office must be notified, and DoD
- 44 MIA procedures and regulations would be adhered to. If the remains are

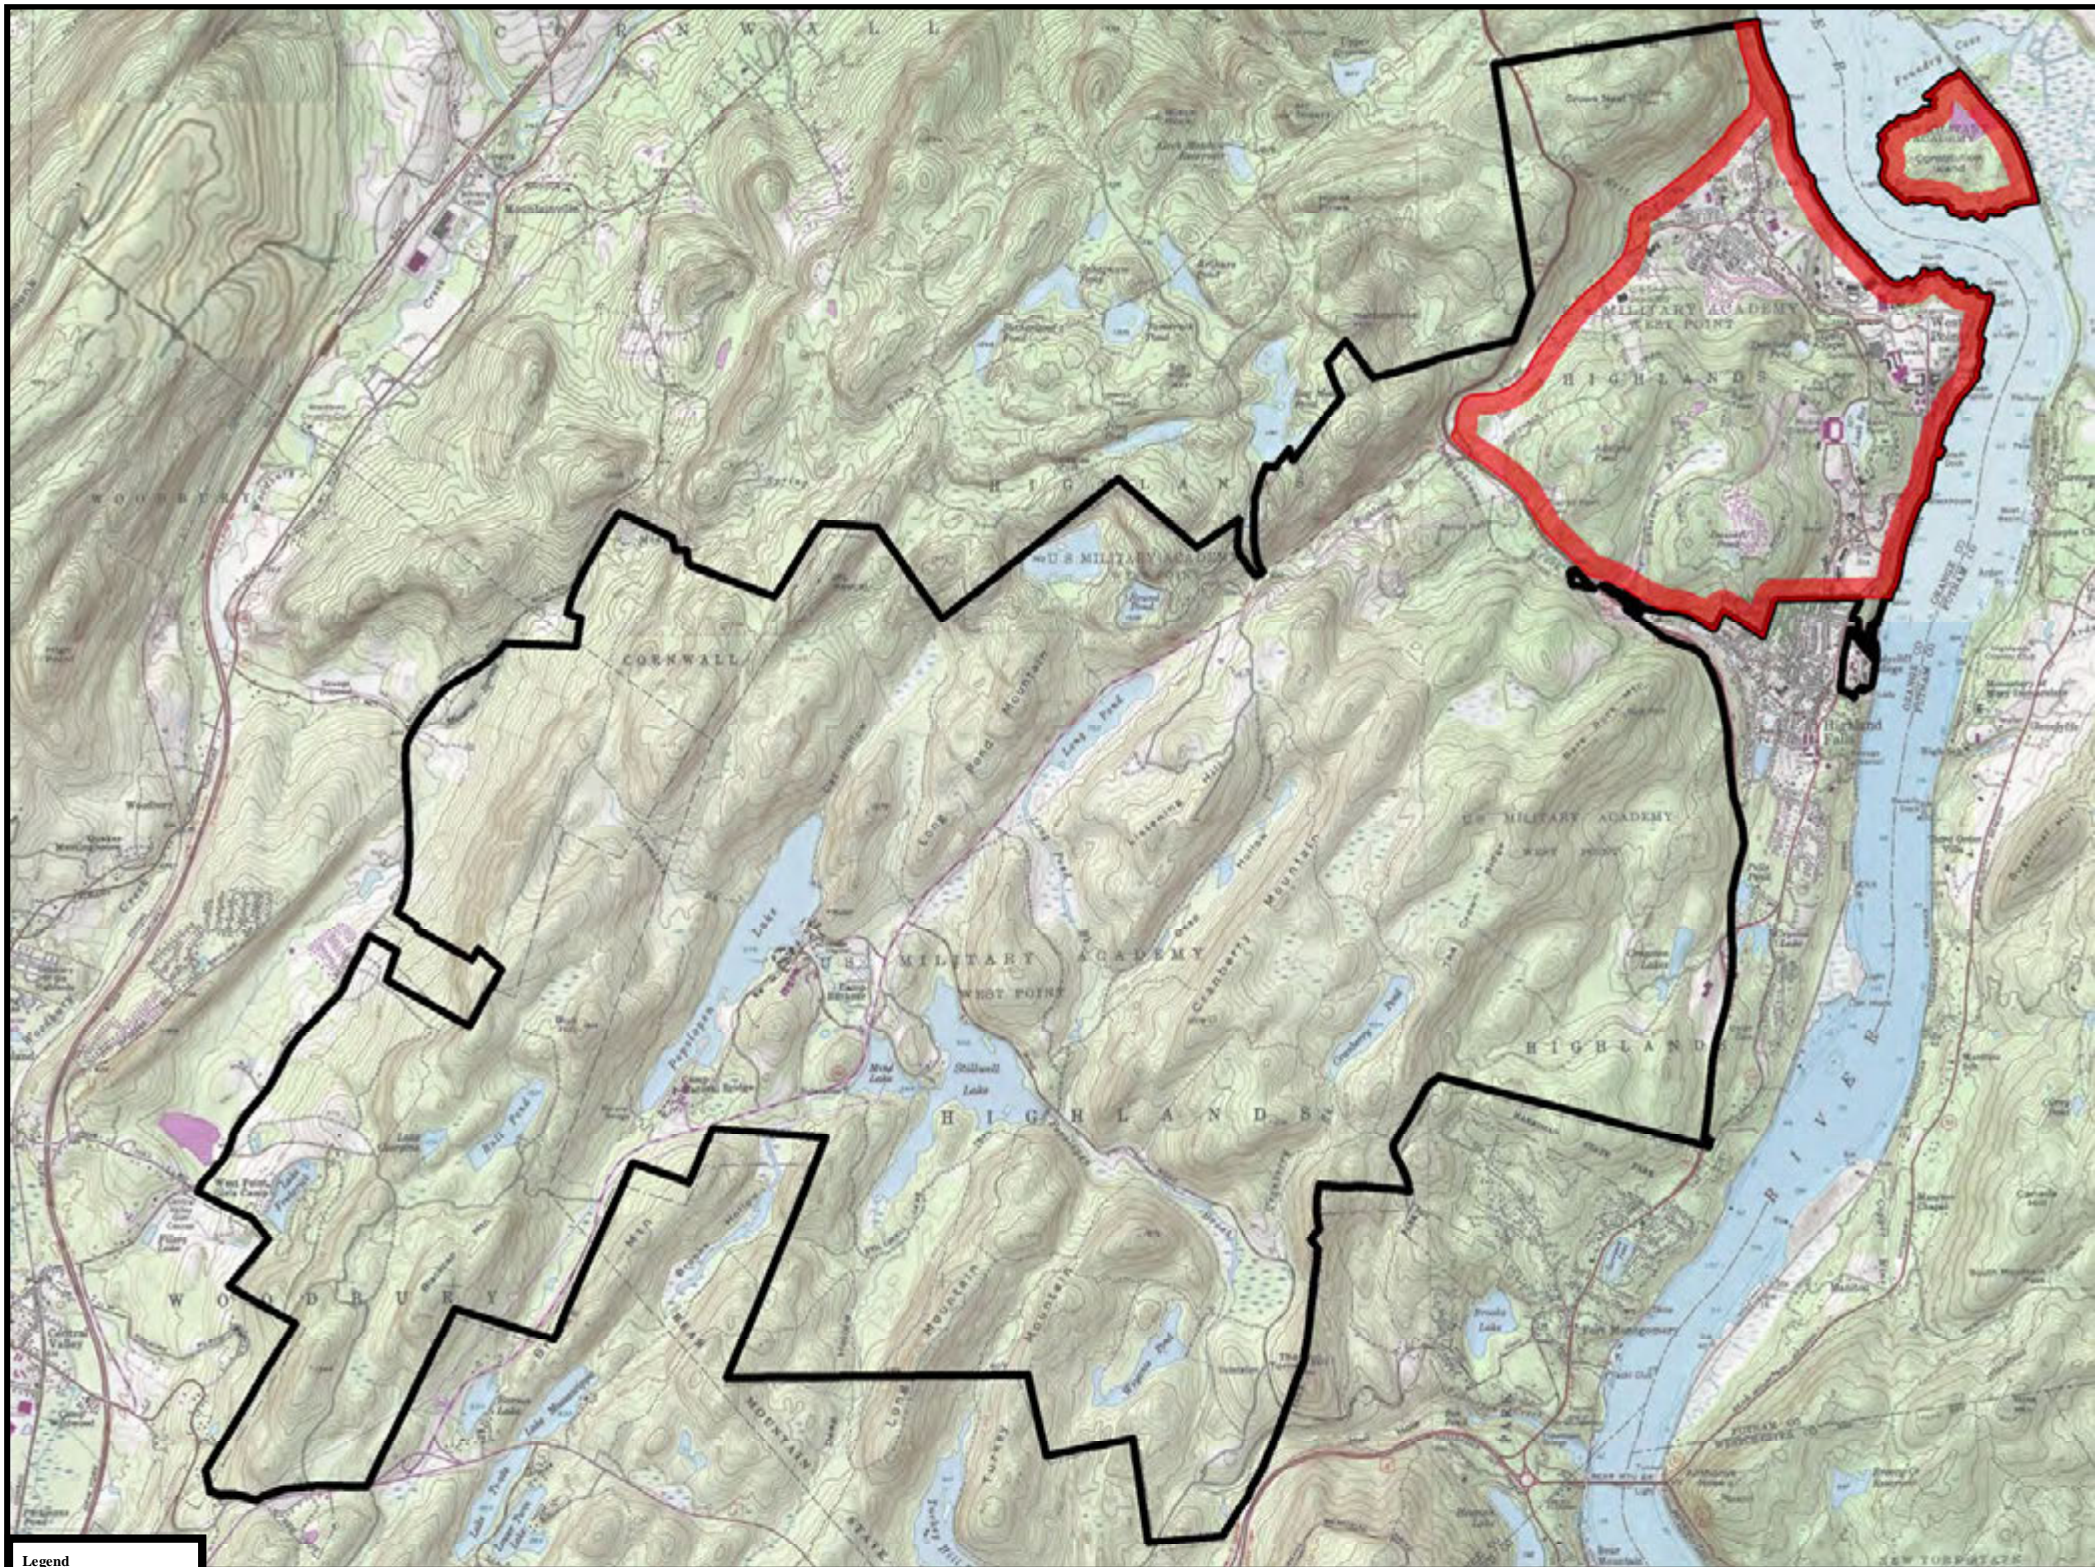

1 determined to be those of an American service-member previous to World War
2 II, no such notification is required.

3
4 k. Following all necessary consultation and appropriate notifications, the
5 archaeological firm would continue with the excavations under the direction of
6 a professionally qualified Forensic Anthropologist.

7
8 l. If the remains are determined to be that of an American service-member
9 previous to World War II era, the remains would be re-buried at the West Point
10 Cemetery with full military honors, and with appropriate military ceremony.
