

POWER OF ATTORNEYS (POA)

GENERAL OR SPECIAL POWER OF ATTORNEY (POA) will be accepted to conduct any action with the Vehicle Registration Office if the grantee is the SPOUSE of the registrant or registered co-owner.

DEPLOYED U.S. FORCES PERSONNEL (verified with deployment orders or a memorandum from the rear detachment commander confirming deployment)

May add a non-family member as an additional driver to their vehicle registration for the purpose of vehicle care using a special power of attorney. The non-family member added as an additional driver must be a member of the U.S. Forces or the civilian component with full individual logistical support and must be removed from the registration once the owner returns from deployment. An agent must have permission from the lien holder to be added as an Agent.

DISPOSITION OR SHIPPING BY AN AGENT

If an owner is unable to dispose of a POV before departing due to PCS, ETS, retirement, or reassignment outside of Germany, the individual's unit commander or director will appoint an agent to dispose of the vehicle. The agent must be at least one rank higher above the POV owner. The agent will be granted special POA (AE Form 190-1AD), which will be valid for 90 calendar days. The current POV registration must be valid for at least 90 calendar days for the agent to be added. If the registration is valid for less than 90 calendar days, the owner must have the POV inspected, renew the registration, and pay the current registration fee before the agent may be added to the registration. A POA is granted when both the owner and the agent appear at the FRS and complete AE Form 190-1AD in the presence of the station clerk. The agent must also be a sponsor and must read and sign AE Form 190-1AF. The owner and the agent must appear together at the local FRS and complete AE Form 190-1AA. The FRS clerk will then issue a POV registration that will be valid for 90 calendar days. During the 90-day appointment, the agent must ship, transfer, or otherwise properly dispose of the POV. The 90-day owner-agent registration will not be extended. The agent must properly dispose of the POV before he or she out processes and departs. An agent owner must have permission from the lien holder to be added as an agent.

NOTE: When owner has already departed, then agent owner after the fact must be processed.
