MEMORANDUM FOR All Military Personnel Subject to the Senior Responsible Officer (SRO) Authority of the Commander, United States Army Europe

SUBJECT: Mitigation Measures to Prevent the Spread of the COVID-19 Virus

1. This temporary policy is issued to promote readiness and community health by mitigating the spread of the COVID-19 virus within my SRO area of responsibility. My SRO authority includes all Army Installations and personnel assigned or attached to the USAG Wiesbaden area of operations. Military personnel assigned to those locations will comply with the following orders, effective immediately, until this policy is formally modified or rescinded.
2. Military personnel subject to this policy will not patronize the following off-post establishments: bars, night clubs, dance clubs, movie theaters, pools, spas, massage parlors, hookah lounges, or the indoor seating portion of restaurants (outdoor seating or picking up carry-out orders is not prohibited). This is not an exhaustive list, and includes other high density locations. These places are off limits because they increase the risk of close personal contact with others, or tend to have such a high density of patrons as to make it impossible for individuals to have one meter of personal space. Other venues that share these characteristics are also off limits. Exceptions and clarifications are delegated to O-6 supervisors.
3. Despite the above, individuals may utilize all services located on military installations. Further, this policy does not prohibit Service Members from utilizing off post pharmacies, gas stations, medical facilities, attending places of worship, or visiting stores to purchase essential goods such as food or necessary household items. Personnel may also conduct outdoor physical fitness activities. When travelling to these locations, personnel will take reasonable measures to maintain proper hygiene practices.
4. I encourage all Civilian Employees, contractors, and Family Members to comply with this policy. Everyone has an obligation to reduce the risk of spreading the virus; the combat readiness of our formations depends on it.

A handwritten signature in black ink, appearing to read "Ellen S. Clark".
