

THIS WEEK 2-6 MAY 2022

WORKPLACE HAZARDS

Many chemicals that at one point were used frequently with little concern were later found to be toxic. Some even resulted in long-term effects on those who were exposed to them. But how do we identify chemicals that still haven't been studied enough to prove to be the cause of disease, much less implement controls for them?

WILDLIFE STRIKES

I was about 500 feet from the exit for Fort Belvoir, riding in the right lane on a poorly lit section of the road. I was almost home free when I suddenly saw a gray mass in front of me. Whatever it was, it didn't seem to know what it wanted to do.

EMERGENCY PROCEDURES

The big takeaway for me was something I have heard often throughout my aviation career — "Just fly the aircraft." Not all emergencies require immediate action. Fly the aircraft first and make sure everything is where it should be.

PRODUCTS & TOOLS

Learn the safety culture and climate within your organization.

A family of information technology systems that underpins the Army Safety and Occupational Health Management System.

Great resource for finding a local riding association, and learning to be a safer rider.

An interactive, easy-to-use, automated system designed to assist users with the application of risk management.

Make your Soldiers aware of the off-duty hazards they'll face with the Off-Duty Safety Awareness Presentation.

A collection of resources to aid commanders and leaders in the management of range operations and safe weapons handling.

DID YOU KNOW?

Do you want to start receiving U.S. Army Combat Readiness Center safety products — such as the weekly **RISK MANAGEMENT** newsletter and **Preliminary Loss Reports** — via email? If so, just click the **subscribe to safety products** box at the bottom of this newsletter and select which products you'd like to receive.

WHAT'S NEW

May is Motorcycle Safety Awareness Month.

Click here to access a variety of resources — including leader talking points, brochures, posters and videos — to raise awareness and help reduce motorcycle mishaps. **Readiness Through Safety!**
