Leading Missionary: Lt Col M.B. Noland received a letter of commendation from President Howard for his outstanding work in securing memberships. His second large return was for 35 members. So far he has accounted for about 20% of total.

New Membership Card: Lt Col S.H. Spillner, Chairman of the Membership Committee has prepared and is having reproduced a membership card for your wallet. Good!

Secretary-treasurer Bradlee will visit Boston o/a 2 Oct, and will confer with the members of the Military Police Committee there relative to association matters. If a get-together luncheon idea is approved and successful Col Bradlee thinks luncheons might be held elsewhere. They claim a potential of 100 members there now. Their next meeting is scheduled for October. So far we don't have the 100 enrolled.

Col Howard: As the result of an (minor??) operation, the president has been in the hospital and at home for sometime. He was able to click his heels, with both feet off the floor, at the lineup party and is giving considerable thought to the Assn.

Important Change: Just after the seniority list of all MPC officers on EAD dated 30 July was rec'd at TPMGC for reproduction the new AR 600-15 dated 14 August was rec'd. Further instructions are being requested regarding the list and its distribution. The main change so far as RA officers are concerned is that precedence or relative rank now depends on the place in the permanent promotion list (point No. 2 after date of rank) rather than the customary months of active commissioned service. The relative rank of Warrant Officers and Enlisted Personnel is also covered in detail.

Precedence or relative rank: As among officers of the Regular Army. 1. By date of temporary or permanent rank whichever is earlier. 2. When dates of rank are the same among officers of the same promotion list, then they rank in accordance with their position on the promotion list. 3. When officers are on different promotion lists then the one with the greatest amount of service for promotion purposes shall be the senior. When this is the same the matter is to be referred to D/A.

Among Reserve, National Guard, AUS officers without component and retired officers on active duty: 1. By date of rank. 2. By length of active federal commissioned service. 3. When 1 and 2 are the same by age.

Regular, Reserve, National Guard, AUS without component and Retired Officers on active duty: 1. By date of rank. 2. By length of active federal commissioned service, which in the case of a regular officer shall be the service creditable for promotion purposes. 3. When 1 and 2 are the same the regular officers shall take rank among themselves as described above, preceding non-regulars and retired officers on active duty, who shall take rank among themselves according to age.

Effect: While this will have little effect on rank between regulars and reserves it does result in some shifts among RA officers. Taking a group with the same date of rank, in many cases younger officers with more months of active commissioned service frequently ranked officers senior to them on the permanent list. This came about mostly because of the temporary promotions of groups of officers in 1950 and 1951, giving them the same date of rank, whereas actually they might be of two ranks by permanent appointment. The new list of RA officers by permanent and temporary rank, now at the printers had to be revised in accordance with this new AR. Send in 50 cents for your RA List! Send news to Lt Col R.E. Pearson, Box 203, TPMGS.

Membership: As of 26 April there were 34 members of the new MPA. No additional memberships were solicited until after 26 July. By a month later the membership had tripled. Up to the time that this was written the 100 members of August had been increased 150%. Growth of the MPA has been steady and is very good considering that so far all the work has been done in spare time by busy officers and men, at a time when the activity at TPMGC was increasing daily with the influx of new students and the starting of a new academic year. Inquiries are being received every day as the result of small news items in service publications throughout the world. Many of the inquiries are from enlisted personnel. We want, as members, all who are interested in police work and allied activities in the Services; civilian, enlisted and commissioned personnel, male and female. We have representatives of every group enrolled now. But the word must be spread to all members of the Corps present and past. The new MPA should be of definite help to PMS&Ts and to others who are working toward a Corps d' Elite. Progress to a point where the MPA can be of real value to you as a member, and to where we can have a printed publication, will depend on the members. Pass your copy of this publication on to others, mention the MPA to those who might be interested. Col Noland who has collected the interim fee from more than 56 persons has shown what can be done. (Col Weissman says it is because he is an "old 701st man.") There is no reason why each member, during these early days cannot secure at least one new member a month. If each member secured 50, as did Col Noland we would be sending you a printed monthly publication this month. About 3,000 will make such a publication possible. Meantime we are doing our best to give you something and we are depending on you to bring in the members. One man, or a hundred men cannot make this association a success but they can give it a start on a long and interesting period of service. Send in memberships, and regardless of whether you have any memberships to send in, write the editor giving news about yourself and your associates. We particularly want news about enlisted personnel who are members of the MPA. This is a publication for personal items, promotions, awards, babies, marriages, and things that would be of interest to you if they were written about a friend of yours. Keep them coming.

THE LAY OF THE MPC

Words by Lt Col Calvin Goddard — Music by Gladys Alvord

We're the first in the hearts of our fellow G.Is;
They tell us how they love us with tears in their eyes;
They honor and praise us where-ever we be;
For we are the boys of the dear MPC!

CHORUS

M-P-C! M-P-C: We forever plug for peace on land and sea;
When there's trouble in the air, you will always find us there;
We're the tootin, tootin, shooting M-P-C!

EXTRA VERSES

2. When you make us arrest you, it pains us indeed;
We hate to detain you for driving at speed,
For we know you're just children with backs that are strong,
But with minds scarcely able to tell right from wrong.

3. When you gaze much too long upon wine that is red,
We knock you cold gently and drag you to bed;
Should wine lead to women, and women to crime,
Our best board and lodging won't cost you a dime!

4. So don't stain your record by taking supplies,
That Uncle Sam purchased, it's very unwise;
We frown on it darkly, and every last man
Caught playing such tricks we will toss in the can.

5. Don't gamble for money; play only for fun;
Don't deal in Black Markets; it's not being done.
And try not to whistle at gals going by;
One of 'em might hand you a poke in the eye.

6. Stay out of all pool rooms and dance halls and dives;
The Devil's own business in such places thrives.
Put cuss words behind you; no nice soldier swears;
At bedtime remember to kneel and say prayers.

7. Your leather and metal keep polished and bright.
Snap up with that hiball when brass comes in sight.
And take for your pattern the standards we've set,
Which no other service has ever touched yet!

8. When Bud wants to borrow, just hand him your jack;
You've credit on high if you don't get it back.
Do right and fear no man; the opposite's true;
Don't write and no chippie will ever clip you.

9. Be kind to all creatures around and about;
For cultural concerts be sure to turn out;
Be helpful to cripples and blind men and such,
And candy from children, don't ever take-much.

10. You love us we know, for the GIs all do,
And if you are good, we could come to love you.
So stick to your knitting, and don't shoot the breeze.
And some lucky day you may make the MPs!

Col Goddard, an MC officer was recently with the CI Lab in FEC. Thanks Colonel.

From PATHFINDER: Australian Ambassador Percy Spender, halted by a military policeman as he attempted to enter a session of the San Francisco peace treaty conference last week, protested he was its permanent vice president. "I don't know you from Adam," replied the MP. One man who had no trouble getting in: a visitor with a lapel badge reading "FBI." Closer-and later-inspection revealed the fine print beneath the initials: "Fan Belt Inspector." Training must be continuous...

The Government spent $12,400,000,000 or an average of $1,631.58 on 7,600,000 veterans of World War II for their education under GI Bill.

Bad News: At Seattle--Two baton twirling girls who had been entertaining returning Korean veterans, put on a second show for soldiers leaving for the combat area. The cheers turned to boos when the MPs moved in. One MP took a direct hit from two eggs and a grapefruit. Others were splattered with "near misses." Eventually the MPs herded the girls inside a pier shed. The harried MPs had "no comment".

Associated Press Photo Page carried picture of Russians on the march--bayonets fixed to rifles, Soviet military police march past reviewing stand as they turn over monthly guard duty in Vienna to US Forces. They hold the rifle with right hand on the small of the stock and the left gloved hand near end of barrel...so bayonet almost pricks the back of the neck of the man in front of them, as they march.

General Weems Retires. Onetime EUCOM Provost Marshal retired in Sept.

General Parker, TPMG and Honorary President of the MPA, invited Department of the Army general staff chiefs, heads of other administrative and technical services and other high ranking officials to join his staff in observance of the Tenth Anniversary in his office. A special ceremony was held on 26 September by TPMGC.

Retirements have made possible the promotion to the permanent rank of Colonel of more than 200 Lt Colonels since 1 January. RA officers move up accordingly. During 1952 at least seven Lt Generals will retire for age, along with other general officers.

Seniority List: The latest list of all MPC officers on EAD was prepared by TAG as of 30 July. With the publication of the new AR 600-15 as of 14 August it is likely that the list will have to be revised before copies are reproduced for distribution. Some delay is anticipated since considerable work is involved in preparing such a list. While we do not have the data on all MPC officers we do have the revised list of RA MPC officers by temporary rank. The sehior and junior of various ranks are as follows: Numbers refer to standing MPC-RA.

Alphabetical list all MPC EAD Officers: Although official lists have a time lag of about three months and only include those officers for whom official forms have been submitted by their own headquarters the following list is presented in the belief that it will be of interest to readers of the MP Journal. It does not (repeat does not) reflect the changes called for under the new AR 600-15. Temporary promotions have been indicated up-to-date by the editor. Corrections should be sent in. This list shows a total of 2,915 MPC officers on EAD. of these 60 are colonels, 300 Lt Cols, 469 majors, 936 captains, 834 Lts, and 316 Second Lts. many of the several hundred 2nd Lts ordered to duty in September are not shown. The first number is the rank seniority based on the old regulation and is only relative for the present to give you an idea where you stand in the total list.
