

FLW NCOA ACT

Army Career Tracker(ACT) is a Leader Development tool that helps you Track & Manage your Army career. ACT makes information Visible, Understandable, and Actionable so you can proactively plan your career and chart your success.

The ACT Community Pages allows the NCOA to provide the most up to date documentation perspective students will need prior to attending their PME course. It allows you to comment on Forum Topics and receive the latest updates on initiatives and programs.

All prospective NCOA students will join our community to download and fill out documents for course in processing. Our page has links to Leader Professional Development Briefs, a forum to discuss topics, and Course specific information.

All students across CMF's facilitated in MSCOE NCOA are required to become members of the Fort Leonard Wood MSCoE NCOA ACT Community. Many courses within the MSCoE NCOA will require students to retrieve required documentation from our ACT community page for in-processing .

You **must have** a Common Access Card or know your AKO Username and Password to login.

Log into Army Career Tracker at <https://actnow.army.mil>
