

Q&A

JOHNNY J. JACKIEWICZ

SECURITY MANAGER
FORT LEONARD WOOD
DIRECTORATE OF PLANS, TRAINING,
MOBILIZATION AND SECURITY

Prevents compromise or loss of classified and sensitive documents and equipment, and ensures clearances and suitability investigations are processed properly for employment.

“
The Army is a family tradition. I started as a dependent, then enlisted and served 26 years in the Army before retiring. I guess you could say it is in my blood.
”

What do you like most about your Army career?

I have enjoyed the **excitement of the job, traveling the world, learning new customs and traditions, friendships**, and most of all, sharing it with my family.

What advice would you give to others who might be looking at working for the Army?

The opportunities with the Army are plentiful; you just need to know what you want and go for it. **There's nothing better than being a part of a large family - the Army.**

What is your most memorable Army experience?

My positive experiences have been quite numerous, and started when I first joined the Army. **I was chosen for the Army reenlistment poster in 1980, which appeared in all media publications and billboards worldwide.**

I was selected and assigned to **the Military Security Force for the Office of the Joint Chief of Staff at the Pentagon**, and attended the Military Intelligence Officer Basic Course at Fort Huachuca, Arizona for four months as a DA Intern while assigned to MSCoE.

What made you decide to have a career with the Army?

The Army is a family tradition. I started as a dependent, then enlisted and served 26 years in the Army before retiring. I spent a year as a contractor before applying for my current position at Fort Leonard Wood through the DA Intern Program. **I guess you could say it is in my blood.**
