MISC:

- Ensure you are released from your Defense Travel System hierarchy before you departure from your current duty station. You will be going TDY while attending CBRN C3. In addition, ensure your GTC is current and active. If you do not execute this while at your current unit, it will be extremely difficult to do from FLW. *** This is extremely important and is a constant friction point. Verified you are released before PCSing. ***

- When in processing, ensure the BN S2 receives you in JPASS. There are security clearance requirements in the first couple of days of the class. If your clearance expires right before or during the course, address the matter with your S2 or as soon as you arrive. If you do not, you will not be able to attend important training events. Additionally, make sure the S6 creates your student account for network access. You will need a current Information Assurance and AT Level 1 to in process. All class material will be posted to a shared drive on the local network.

- You will need a government travel card as you will go TDY during the course. If you do not have one, you **MUST** begin your application process. This is extremely important and must be started now.

- If you have/require a Family Care Plan, bring it with you.
- **PT still starts at 0530 here. 5 days a week.**
- Email (see below) a copy of your **ORB ASAP**. This is for administrative purposes only.
- We will have International Military Students in our class.
- MEDPROS doesn't stop while in School. Stay green.

If you have any questions please send an e-mail or contact us using the Contact Information located on the CBRN C3 Course Page (above link).
