## Military Police Captains Career Course

### Advance Sheet for MPCCC (RC) Resident Phase 2

#### 1. SCOPE

The Military Police Captains Career Course provides training that is focused, challenging, relevant, doctrinally sound, and regulation compliant for mid-grade level leaders preparing to serve as company commanders and staff officers. This course includes the new TRADOC mandated common core curriculum which is deemed common for all captains in the US Army. This curriculum is presented as an Outcomes-Based Training and Education program and is delivered using the Experiential Learning Model and blended learning approach throughout the course. The branch technical portion teaches the technical and tactical aspects of the three MP disciplines. The lessons are taught through lectures, discussions, written and oral requirements, practical exercises, and Tactical Exercises Without Troops (TEWTs). The lesson plans reflect the continuing emphasis on changes presented in the Operational Environment (OE), the requirements and benchmarks set forth in the Army Learning Model, and specified requirements from the USAMPS Commandant to ensure that the course is challenging and rigorous. Officers will utilize lessons learned and apply critical thinking and decision-making skills within the OE; equipping them to serve in a Joint, Interagency, Intergovernmental, and Multinational environment.
