

MSCoE CG and CSM Send: Recognizing Vietnam War Veterans Day

On March 29, we recognize National Vietnam War Veterans Day, which commemorates the 51st anniversary of U.S. military combat operations ending in Vietnam.

MSCoE CG and CSM Send: Recognizing the strengths and sacrifices of our military children

In 1986, the Department of Defense designated April as the Month of the Military Child. This observance is meant to highlight the unique lives of military children, recognize their incredible resilience, and allow us to applaud military families for their daily sacrifices.

REINFORCING TRUST IN EQUIPMENT

Trainees with Company B, 2nd Battalion, 10th Infantry Regiment, completed the Mask Confidence Course March 26 at Training Area 106C. The two-part course, which includes classroom instruction and hands-on training, typically occurs during week four of basic combat training and is intended to reinforce the trainees' trust in their equipment. More photos from this training event are available here.

As a 68W Army Combat Medic Specialist with Fort Leonard Wood's Combat Training Company, Sgt. Brett Trager teaches the Combat Lifesaver Course to Soldiers and first aid to basic combat training attendees.

Where are you from? Merritt Island, Florida

Why did you join the Army?

Both my dad and my grandfather served in the Army. They each did four years and really enjoyed their time serving. They encouraged me to consider the Army for the experience. Also, a lot of my friends from school enlisted in the military. The Junior ROTC program is huge at Merritt Island High School. I went into the workforce after high school. I debated joining

for a while, but at age 22, I finally decided to enlist. I am glad I did.

Why do you continue to serve?

I have been in a little more than eight years now. We are having a baby soon, and this profession allows me to care for my wife and our growing family. I also enjoy being a leader and being a good example for new Soldiers.

How do you like being at Fort Leonard Wood?

This has been one of the best duty stations for me. I have had time to spend with my wife. I was an infantry line medic at Fort Cavazos, Texas, and the NCO in charge of a clinic at Fort Sam Houston, Texas. I worked a lot of long hours there, including nights and weekends. When I got here and found out I

was going to get to be an instructor, I was surprised and happy.

What is the most fulfilling part of your job?

I get to teach trainees in their first month of basic combat training. I enjoy sharing my skills with others. I am teaching life-saving skills to trainees that they will take with them throughout their Army careers. During the three days, you can almost see when it clicks with them — they realize they might need to use this in the real world one day.

What is the most challenging aspect of your job?

We see a lot of challenging things. Our training does a good job at preparing us, but some people find parts of our job nasty. We just react; we don't even think twice.
