Military Police Captains Career Course**

Advance Sheet for MPCCC (RC) Distance Learning Phase 3

1. SCOPE

The Military Police Captains Career Course provides training that is focused, challenging, relevant, doctrinally sound, and regulation compliant for mid-grade level leaders preparing to serve as company commanders and staff officers. This course includes the new TRADOC mandated common core curriculum which is deemed common for all captains in the US Army. This curriculum is presented as an Outcomes-Based Training and Education program and is delivered using the Experiential Learning Model and blended learning approach throughout the course. The branch technical portion teaches the technical and tactical aspects of the three MP disciplines. The lessons are taught through lectures, discussions, written and oral requirements, practical exercises, and Tactical Exercises Without Troops (TEWTs). The lesson plans reflect the continuing emphasis on changes presented in the Operational Environment (OE), the requirements and benchmarks set forth in the Army Learning Model, and specified requirements from the USAMPS Commandant to ensure that the course is challenging and rigorous. Officers will utilize lessons learned and apply critical thinking and decision-making skills within the OE; equipping them to serve in a Joint, Interagency, Intergovernmental, and Multinational environment.

Phase 3 consists of 32 lessons in 75 hours of instruction. The course is delivered via distance learning through the Maneuver Support Center of Excellence Blackboard Site. A detailed assessment plan can be found in paragraph 2 of this advance sheet.

Before beginning coursework, students must receive a valid ATRRS reservation. Once enrolled, students have 11 months to complete Phase 3 Distance Learning. MPCCC-RC POC's will monitor students' progress in Phase 3. Students must receive an 80% or higher on each exam and check each "reviewed" box to unlock the following module.* *Blackboard will automatically generate a completion certificate once all course content has been satisfactorily completed.* Weekly, the academic program of record (DTMS) will be updated to reflect students who have completed Phase 3. This action will result in an update in ATRRS. Students whose ATRRS record is not updated within 30 days of completion may contact the POC's to inquire as to status.

*Note: Student grades are maintained through Phases 2-4. IAW CATD ISAP published 1 JUNE 2019, any MPCCC student receiving academic honors must be a FIRST TIME GO on all evaluations, to include Distance Learning.
